

Rev 12

## In Search of God:

GO TO SECOND PERSON: Not Todd but this person. I knew this man who.

[Where The Antichrist Will Come From According To The Bible | Elon Musk](#)

We need to witness to the criminals, the drug dealers as to what their life after death might be. Will some end up in hell because we have done nothing to help.

TAKE THIS OUT – VERIFIED. I over did everything, got too excessive and ran into walls. I saw things at church and took them out into the streets.

My biography is for me only, your life will be different.

ADDITIONS: And he said unto them, I beheld Satan as lightning fall from heaven. Luke 10:18.

This was photon emission from a quantum jump to a lower level. This works has to do with the forces that pull people down into hell. End time works. I fought a great battle in the heavens.

Psalms 64 1-8 verse 2 Hide me from the secret counsel of the wicked; from the insurrection of the workers of iniquity: 5. They encourage themselves in an evil matter: they commune of laying snares privily; they say, Who shall see them? 8. They shall make their own tongue to fall upon themselves; all that see them shall flee away.

He came for the lost. If you think your lost or, don't know then he is for you.

The full version of this biography, is for the chosen of the church, and must be read by those having some experience and have his gifts.

In the springtime on 'certain days' one can hear a field of plants grow, and in the winter when the snow covers the ground it gets real quiet.

This is how it my life's journey occurred as I "Todd" saw it. My work is full of emity which is a name, not the word enmity.

# In Search of God:

## The Autobiography of Todd Walter Grigsby

EDITOR: JUDITH MARILYN FOSTER

### Part I

1. Autobiography: intro, bio, things God has given me 8 pages
2. The Bible 2
3. God: To God Be the Glory, connections with God, walking in the Spirit 3
4. Angels: the Golem (the spirit world) 2
5. Spiritual Exhortations: things from the Holy Spirit, accountability 7
6. Words for the Jews, Muslims, and the Chinese: to my Jewish friends, warning, Moslems, to my Moslem friends, China 3

### Part II

7. Science: inertia, quantum jump, quantum dating, words heard, curses, the sin path, gravity-wave, blind eyes, a new reality, filling in the voids, aging, waterbed, two-thirds, Heisenberg principle 11 pages
8. Scientists 2
9. Scientific Explanations for Miracles: parting of the Red Sea, Isaiah 55:12 2
10. Education 2

### Part III

11. Prophetic 1 page
12. Noahic (Noachian) Spirits 1
13. Third Grade 1
14. Addictions and Other Sins: various means, sexual sins, alcohol, tobacco, mental, lottery, sins, abortion 5

15. Demons, Evil or Familiar Spirits, Fallen Angels: additional autobiography, to do, ploys of the devil, wings, energy levels, seen vs. unseen, sleep, inertial properties, Doppler, monetary, mass, government, theory, Harry Potter, spirits, general, Garden of Eden, working with God, the dart, sodomy 20
16. My Victory 1

Suggested Readings: books, magazines 1

Glossary 1

#### Introduction:

#### Lord, Don't Let Me Be Misunderstood

**Before God there was a small amount of primordial soup, 'the aether'. And the aether became God, and God created the universe of himself. And, the aether is still a part of God.**

Explanation: The aether before God created himself, was a small volume of random oscillating electro-magnetic fields. A self-building structure acquired intelligence from a minute random oscillating electro-magnetic field. No longer random, from here he (I am that I am) built the majestic universe with angelic beings to maintain it. This is why evolution makes such a strong manifestation, yet these spiritual beings exist correcting and building. This is support for the existence of god not the reverse.

Because of a dramatic life changing event. I was forced to make a difficult search for God. This lead to the discovery of the beach gravitational phenomenon and accompanying physics research. The theory and discovery can be found at: **Synodicgravity.com**. The discovery was given to me to open the blind eyes of the scientific community.

Synodicgravity.com is the real truth gravity is a rotating helix electromagnetic wave. I presented it to the scientific community but was rejected. I assure you it is the truth. The book "FutureScience" by Maurice Cotterell whom I had lengthy correspondence with confirms the

theory. Maurice Cotterell has published several books and has cracked a Maya mystery wide open with his work on “The Amazing Lid of Palenque”.

I wanted to remain anonymous because of the great hatred and persecution of Christians. My autobiography describes in detail what occurred.

This autobiography is a record of my struggle between good and evil. It has been a long, arduous task. Life is shorter than I had expected, and I never realized how difficult this work could be. If it were not for the modern computer, word processors, I would not have attempted this writing, even on a much smaller scale. It would be only a tale, known by some. I also believe that if the writing does not correspond to biblical principles, probably I should not publish it.

**And further, by these, my son, be admonished: of making many books there is no end; and much study is a weariness of the flesh. Let us hear the conclusion of the whole matter: Fear God, and keep his commandments: for this is the whole duty of man. For God shall bring every work into judgment, with every secret thing, whether it be good, or whether it be evil (Ecclesiastes 12:1-14).**

The autobiography is for reference for future scientists and other men. It is a landmark for all future Christians. I’m hoping you will comprehend its importance for decades to come.

The great discovery in it is another foundation for man, so that he can look back and know what he is up against. It is a discovery of biblical proportions, involving biblical attributes. I may have gone overboard. I realize now at one point I had slipped into a realm like the Old Testament. During my research, as the Holy Spirit guided me, I discovered several other, related, very important phenomena.

This autobiography is from a yet-to-be-known, famous scientist who has discovered a long-sought-after, physics treasure that Einstein, Newton, and others labored long hours on. They devoted large parts of their lives to explain the source of gravity. None were able to find the source of gravity and its explanation. Almost all scientists now question Einstein’s explanation for gravity and use it only as a reference point. Many new theories are popping up.

I expect this discovery here and life-story to break through soon. They have been on the local news here in Northwest Oregon, *The Daily Astorian* newspaper, and several scientific magazines. Several prominent scientists have received my DVD and theory. A great debate is occurring now in the scientific community.

The gravitational phenomenon was on the front page of *The Daily Astorian* newspaper on Tuesday, June 21, 1994. The newscaster Eric Schmidt interviewed me for the gravity phenomenon by local television Channel 6 news on 7/5/1995 at Fort Stevens State Park. The Holy Spirit made these events possible. I could recognize when the Spirit was within people and working with me; also things seemed to fall my way for no apparent reason. He opened communication doors that I before always had had great difficulty in getting through.

There is a possibility I will not be alive when this breakthrough occurs. In that case someone later will have to attach the autobiography to this discovery in a yet-to-be-determined way, so that it will not be lost and separated out, like so many other works from men of God.

For rejection reasons, for the time, we must hide the autobiography from the scientific community, which is extremely resistant to new ideas, especially of this nature. Many are greatly opposed and block knowledge that points to a Creator and biblical principles. It seems that when some read anything in regards to God, they immediately regard it as nonsense. For this reason, some scientists will accept the theory first, and then we may reveal its source.

So I removed my autobiography from my book of theory, because it is too disturbing for the scientific community. This autobiography is probably more suited for those in the science of physiology anyway. The book of theory tells what and how to deal with the theory.

Read the work on gravity and physics that the real God-spirit (the Holy Ghost) gave me, and you will find it is real. The Holy Spirit gave me this work after a life-changing event. Most of the autobiography is from after this event. This information, I hope, will enable you to believe the words written here.

Something convinced me that an autobiography would be okay. Now later, I regret being so descriptive on the details, so I have cut out some of them, thinking they could do more harm than good. My

autobiography looks like a bizarre science-fiction movie, but I swear it is the truth and most of it is based upon biblical references. Yet now I recommend just reading the Bible and finding things out for yourself. You'd read to open the eyes of the blind. Also, the purpose of this autobiography is to open the eyes of the blind and to get us ready, preparing us for things to come and the new millennium, laying a foundation for Jesus' next coming and the new kingdom.

**I was re-born and made free through the blood of Christ, and I turned from the mess.** I took an account of what had happened to me, originally for my own restoration, so that I would not forget where I had been. Originally I took notes on my experience, so that I would not forget. Then I started the tape diary, still before I found Christ. I recorded tapes so that I would not forget. I called them "a conversation to myself." They were a sort of diary, although I never considered them so. They were meant as self-help. After I fell into the devil's grasp, I continued recording, mostly through writing. The following is a diary of many of the accounts.

Included here are some things tremendously difficult to understand. I believe for the most part, all these events are true. Read on and I will astound you. People and scientists in general will eventually accept this God-given theory (books one and two), but many will still reject the truths presented here in this autobiography. Most people will not believe my life story, autobiography. These events will not appear in their lives. It is going to depend on one's family history and how close one gets to God, as well as a zillion other factors, for unusual events to occur.

These things will not happen to everyone. Your body's field coupled to your thoughts can open a rift or bubble or passageway surrounding you, between the two worlds: the spiritual and physical. Somehow I opened something, probably due to my physics interests and the knowledge I obtained studying the Bible and spiritual forces. (We remember that there are two: a spiritual issue or chemical imbalance and a combination of both. To my knowledge I had only the spiritual problem.)

This book started out as an autobiography and then got twisted as I continued to study the spiritual and physics realms.

I found I could relate my life to many parallels in the Bible. That book helped me through the battles of life.

After this work gets out, the counter forces will want me dead. I “plead the blood of Christ” over me. They killed Christ and have murdered Christians throughout history. They slew martyrs because their victims stood up for truth and righteousness.

To the person who ridicules and stands against this work:

“Why do you boast, O mighty man, of mischief done against the godly? All the day you are plotting destruction. Your tongue is like a sharp razor, you worker of treachery. You love evil more than good, and lying more than speaking the truth. You love all words that devour, O deceitful tongue. But God will break you down for ever; he will snatch and tear you from your tent; he will uproot you from the land of the living. The righteous shall see, and fear, and shall laugh at him, saying, “See the man who would not make God his refuge, but trusted in the abundance of his riches, and sought refuge in his wealth!” Psalm 52:1-7, RSV.

The last paragraph of the Book of Revelation places a curse on anyone who alters the words of that book. Also, 2 Thessalonians 1:6 (NIV) says, in essence, “He will pay back trouble to those who trouble you.” Because of the severing of God from men of science and their accomplishments in modern textbooks, I place a similar curse on anyone who copies, teaches, or sells this theory and does not include my autobiography. Also I curse anyone who makes serious plans or steps in some way to cause harm to me in any way or teaches this material without my autobiography or separates it from this work. I bind the devil spirit, by the name of Jesus Christ, which may reside within you.

If this work seems weak to you, attempt something of this magnitude yourself. If you knew my life story from my viewpoint, you would realize why I have placed this curse within these pages. The curse found here is in place. The spirit world operates these things. We have only to speak them to be true, if it is God’s will, and it was. I’m tired of fighting this battle alone. So, since this is the way it’s done, so be it. I’ve stuck myself in harm’s way enough and going public is just another.

God inhabits through our praise.

Sincerely,

Todd Grigsby, your friend in Christ and seeker of the truth

BIO: I thought it was appropriate to place a short autobiography within the theory to reveal the source of the theory. I have thought of myself as a normal person, living a normal life. I was born on April 3, 1952, in Portland, Oregon. I grew up in a good Methodist, Christian family with my two brothers and one sister. I was baptized in church as a baby. I had a normal upbringing with close friends. (I had attributes that I assumed were mine, but now know differently.)

God uses names of people and places to tell us a story. Peter Iredale tells the story of a ship-wreck, as well as the name of the town involved, which is Hammond, Oregon, west of Astoria, Oregon. The shipwreck represents in shifting sand the lives of shipwrecked men and women that God will restore on a foundation of rock which is Christ. Astoria is the story, Hammond is the ham people with radios, seeking the gravity wave-lengths. My given names mean "fox hunter" and "ruling people." My mother's maiden name is Ruprect. That means "Jack Frost." There are two versions of what Jack Frost means. Hopefully it's the better of the two. There always are several meanings, as the devil always tries to twist things up.

As a youth, I thought I was a Christian but never really followed Christ. I believed in the divine Creator, but did not have a personal relationship with Christ.

I attended high school and achieved a B average. I was on my high school first-string wrestling team and received a letter, i.e., I lettered in wrestling. Also I scored 494 on the marine physical-fitness test (a grueling test). I was graduated from Parkrose High School in 1970.

Then I received my Associates degree in Engineering Technology from Portland Community College in 1972. (I took engineering in college and was graduated.)

Besides physics, the sciences, and computer programming, I enjoy sports like white-water kayaking, swimming, snow skiing, hiking in the wilderness, and bicycling. I've always liked inventing too.

I worked in various jobs, mostly drafting, until I started a janitorial business. I ran my janitorial work about ten years, doing most of the work myself, as self-employed.

In my career I was also vice president of a manufacturing plant. I have worked in manufacturing from 1983 to the present. We were under a heavy attack by the devil at the factory where I worked. Working through people, we had problems with the union and got sued for various reasons. We were and still are heavily in debt. The devil, using employees, took all our best tools. God brought a financial advisor who helped rid us of many employees and got us going in the right directions. I prayed we would recover, but then the economy went bad. My hope is that we can somehow recover from the financial crisis caused by a long chain of events I believe and know the devil caused.

I still had some sins, but the Holy Spirit constantly gave me clues of what to do and what not to do at work in the family business. There was a long list of things, some very helpful in the right direction. The Holy Spirit guided me and worked with me: what to purchase, how to repair machinery and write computer programs, and much more.

God gave me advice in many areas. One was adding a simple duct to allow cooling of the furnace motors, so that they would last longer and not overheat. I received a huge amount of wisdom for work-related problems. You can find many things in the board-meeting reports for Grigsby Paper Box. On and on the list goes. Some people receive this wisdom from God without even realizing its true source. It just seems to be coming from ourselves. I can say absolutely that it was not from me. I did not believe much of it myself, but after trying, I found the ideas worked.

However, the theory took so much of my time, I could not work properly for the factory. Things I would have done got delayed by years. Finally I said "Forget it" and started doing things to help the factory. The Holy Spirit kept waking me up in the morning and urging me to get to work on time.

I have been involved in a local Kiwanis club since 1983, where I participated in community programs. I served on the local club board, as well as the Mt Hood, Kiwanis camp board. I am the editor of a Kiwanis club newsletter.

I believe in Jesus Christ and attend New Beginnings Church.

One evening at a church service at Northwest Christian Center, the Holy Spirit strongly urged me to attend a Spirit-filled men's retreat at Fort Stevens State Park on the Oregon beach. Yet I allowed my sin to get in the way. I wondered for several years why the anointing or spiritual feeling was very strong for me to attend this men's retreat. One morning I awoke with a similar strong desire to see what I had missed. Finally I followed the desire, and packed up and drove to the state park.

Walking on the beach, I noticed prominent patterns forming in the sand, as waves washed over it. This was the beginning of my study on gravity, as the Holy Spirit directed me. Several years later and doubting the validity of my findings, I clearly and audibly heard the words, "How are we doing on the synodic wave?" I was completely alone when this voice came to me. Many more words came as well, such as, "He wants to work on the atomic spectrum."

I kept asking God why I wanted to know the reasons for creation and more and more knowledge of the universe. I was overwhelmed with this huge brain on the æther field. It became too much.

We can feel and sometimes see the anointing permeating the sanctuary, appearing like a very faint, white, transparent cloud, ghostly-like. Shekinah Glory is the mist-like vision of many righteous spirits in a room (the glory of the Lord). People can be "slain in the Spirit," knocked down, or act like drunks (Acts 2:15), laughing or crying. Usually these phenomena happen only at deliverance or healing services where the Spirit of God is strongly present. Usually a strong man of God is preaching. I'm pretty sure the devil can fake miracles as well, as the Bible speaks of even the elect's being deceived (Mark 13:22), for Satan masquerades as an angel of light (2 Corinthians 11:14).

After experiencing a traumatic life experience, I thoroughly sought out God. There are a lot of dead churches out there, denying the power. I received the gift of wisdom in a slightly dramatic way at Northwest Christian Center (Dr. Roper and Virginia Roper, Doug Sheddy). I have a video tape of this meeting somewhere, although the camera was facing the wrong direction, so only the audio is proof.

The Holy Spirit spoke through me at times in English, several words mainly. I was writing a book like a thesis and did not know it. I had to take eight months off work to collect all my notes from the Holy

Spirit and answers from CompuServe (a bulletin board on the internet). Even then I was not finished, as I expected to be. "Give me a break and not a breakdown," I yelled into thin air.

A lot of the wisdom came from God through other people that I communicated with on the internet's CompuServe's science forum. The Spirit directed me to pray for a specific answer, and many times I received the answer within several days. The Spirit of God, unknowingly to them, directed these people, and they were indirectly answering my prayers. Other times I just posted messages on the bulletin board and received many replies. Some of these people were not even believers or just believed slightly at most. Apparently the Spirit goes around, entering people and communicating with them by dreams or whatever.

People can also use this power to alter the environment. We can sometimes avoid droughts and earthquakes, etc. The earth swallowed up Dathan and his company (Psalm 106:17). These catastrophes occur naturally as well, so they have two sources.

I lost my younger brother to this spiritual battle. He committed suicide. I had a partial gift of healing at the time. Suicide runs in families and transmits, similar to a disease, by contact. Because of sin and a lie, I was unable to reach him in time to help deliver him. A family member, because of wave-length similarities, can enable healing more easily than another without the correct wave-lengths. Shorting-out these wave-lengths greatly reduces our effectiveness with the gift of healing. The devil will also stand in the way or cause anti-healing or damage to our loved ones when we contact them. If He is present, the Holy Spirit will intervene. The Holy Spirit engages or distributes healing gifts.

#### **AMONG THE MANY THINGS THE HOLY SPIRIT HAS GIVEN TO ME ARE:**

There's a partial cure for acne by washing it with soap used for washing dishes by hand. It dissolves the partially hardened oils, stopping up the oil glands.

I placed a large capacitor on the house alarm-system. This capacitor kept false alarms from occurring, due to voltage fluctuation. The furnace motor was turning the fan in the wrong direction. Correcting this direction increased the air flow.

Some works of God in my life are the following: I bound the thief across the street at work. For years we had a problem where various items, including gasoline, would disappear off the back dock. One day a

carpenter came in to do some work. He placed his tools on the back dock and then walked around to the front door. By the time he got through the front door and out to the back dock, his tools had disappeared. I knew then that the thief must be very close by and constantly watching. Looking around, I found two men parked just across the street, laughing as though at me. Walking up to their car, I bound the spirit of thievery three times in Jesus Christ's Name. I made sure they heard it clearly. In less than two weeks they had moved out of the house, and the problem ceased.

My job was located near Martin Luther King Avenue. There were some very tempting women working the streets. The temptation was great, so I took it on my own to bind the spirit of prostitution. Driving up close, I would yell out to each three times, "By Jesus Christ's name, I bind the spirit of prostitution in you," while holding my open hand out the car window.

One prostitute that I bound by the name of Jesus Christ three times in a row, looked at me with glaring eyes and replied loudly, "Honey, you're going to have to bind the spirit of heroin by Jesus Christ's name." Immediately her jaw dropped and her eyes opened wide in astonishment. I drove off quickly. Later I discerned what had happened. She got delivered on the spot!

There are many stories of people's being delivered. God works these miracles only if we initiate them. Prayer is good, but God usually requires some physical action to accompany it.

We must initiate a change or God will not move. Like David and Goliath, if David had not audibly announced that he came in the name of God Almighty, he most likely would have lost the battle. We must give God the credit. Since He is invisible, and many don't believe, why should He move? Anything could get the credit instead. It's like working and not getting paid. He is a jealous God.

After I bound about fifteen prostitutes in the course of six months, a neighborhood group began patrolling the avenue, and the police cracked down on prostitution. The streets were cleaned up. Most of these women I never saw on the streets again, and the ones not bound still remained for some time. I'm not saying there is not still a problem on that street, but a lot happened.

I always shared the gospel with people in my daily walk. I know that several people were saved by my witnessing.

My dreams changed. Dreams affect your world through electromagnetic waves. Dreams control thoughts in human groups, much like mass hypnosis. Dreams can have twisted plots, hidden agendas, and character skirmishes. You end up thinking you're okay. We should have deep sleep. Some people have sweaty dreams like outer-limits or science-fiction movies.

I experienced a soothing, healing wind hundreds of times, especially while inside my gravity Faraday-shield (which stops penetration).

I've had a miraculous filtering of my blood. I had a healing and I saw a flash of white light when my eyes were closed. My ears became very sensitive also.

God healed a bone chip in my heel, and although I did not receive a full healing, the bone chip moved out of a tender area. God moved it while I was at church. The heel joint had become painful and sore after walking a short distance, and I wore a cloth ankle-support for the bone spur.

There would have been a lot more if I had been able to follow God. We must plead the stripes of Jesus Christ out loud. By His stripes (lashings) we are healed (Isaiah 53:5).

There are so many things I could not share, for lack of time. I was just too busy with the family-business, financial problems.

I hate this autobiography and do not want to disclose it. The devil seems to have influenced more stuff in my life than I thought. God has tried to correct it. I tried to tell the story as best I could.

**I was unable to finish the autobiography for lack of time and a severe case of writer's cramp.**

## 2. The Bible

God communicates often with images. Read the last book of the Bible, the Book of Revelation. People must translate the images like icons, uncovering the hidden message within. This is probably why God hates the worshiping of images. It interferes with His communication.

The biblical texts outline the terrible things that are coming. The end-times could end up in a huge barrage of confusion. I will shed some light on how it could happen, using physical, scientific principles.

In the last days which are very near, you will not be able to buy or sell without the mark of the beast. In Revelation, the Apostle John prophesied this fact. Most believe this mark to be like a credit card with a magnetized strip or bar code embedded only, just under your skin. Dogs, fish, and some humans already have received this item, as of the middle of 2010. No one will be able to buy or sell without it. **DO NOT ACCEPT THE MARK; IT WILL CONDEMN YOU. IT CLEARLY SAYS THIS IN REVELATION 13:16,17, 14:9-11, 16:2, 19:20, and 20:4.**

**A GREAT PART OF THE EARTH WILL BE DESTROYED, NOT THE ENTIRE WORLD.** (See Revelation 21:1; Isaiah 65:17; 2 Peter 3:10 ff.) It looks clearly as if a great part of the earth will be destroyed, and God will bring down a new earth.

Who am I? Am I qualified to reveal more than the truth I've read within the pages of my Bible? From respect and caution, someone else more qualified (the Christ) has the keys and opens the great seals (Revelation 5-8). After thoroughly studying biblical words and comparing the Bible to myself for many years, my only conclusion is that there is a heaven and hell, and in this autobiography, I'm trying to show how one can be in danger with the spiritual world and hell.

Remember that God gave us His word in the Bible to keep us from harm, not to restrict us. It is up to us to do what is right. We that are born again are not under the curse of the Old Testament law (Hebrews 9:15), although it is full of things that can happen to individuals and nations. **The left hand will not know what the right hand is doing. (See the last verse of Jonah and Deuteronomy 1:39.)** Everything is in the Bible from good to terrible. All the bad events could happen to you without the wonderful Counselor's being with you.

Some scriptures you will not understand; they are written for the spirit that lives within you. They are from the Lord who hosted (penned) them. You read the scriptures (verses) to your spirit. The spirit within you needs the Word and reads it, with the Spirit's helping with the understanding. We are the house for God's Spirit.

One must read the Bible daily. There is so much in there, it just lives!

The Bible is the greatest book ever written. It is the words of God speaking to us as humans. We must all seek God and get back to the biblical principles laid out in the New Testament.

(Don't forsake the assembling of Hebrews 10:25 and the tithes and offerings of Malachi 3:8.)  
You will have to read the Word yourself, believe the sources in the Bible, and apply it to your life. Read the Word daily!

(This is not part of the book.)

1 Thessalonians 4:6: And don't lie and defraud your brother in Christ or do him wrong in any other way. As we told you before, the Lord will punish those who do these things by letting them reap the consequences of what they've done.

Proverbs 4:16: Those kinds of people are hooked on evil. They can't go to sleep until they feel satisfied that they can get away with something. They toss and turn at night unless they can think how to take advantage of someone.

Psalm 52:1-7: Why do you who are strong boast of your strength? Why do you boast about your wicked deeds? Don't you know that you're a disgrace to God whose righteousness never changes? 2 You're always making plans to take advantage of others and destroy them. Your tongues are as sharp as a razor and you tell lies without blinking an eye. 3 You love to do evil but have little or no love for doing good. You would rather tell a lie than tell the truth. 4 You love to hurt people with your lying words. How much more wicked and deceitful can you get? 5 The God who loves you will have no choice but to let you suffer the eventual consequences of your own sins. Because you have already passed the point of no return, He will step in, take you out of your houses and remove you from the land of the living. 6 This will put the righteous on the alert. They will talk about you and say, 7 "See what happens to men who don't care about God or depend on Him. All they cared about was money. They boasted of their shrewdness and destroyed others to get ahead."

The Clear Word, Jack J. Blanco, 1994, Printed and distributed by Review and Herald @ Publishing Association, 55 West Oak Ridge Drive, Hagerstown, MD 21740

### 3. God

I hope none of you reading this book are atheistic, because there are some critical remarks about God in here.

The day the earth stood still, Joshua 10:12-14, NIV:

. . . Joshua said to the LORD in the presence of Israel: "O sun, stand still over Gibeon, O moon, over the Valley of Aijalon." So the sun stood still, and the moon stopped, till the nation avenged itself on its enemies, as it is written in the Book of Jashar. The sun stopped in the middle of the sky and delayed going down about a full day. There has never been a day like it before or since, a day when the LORD listened to a man. Surely the LORD was fighting for Israel!

Could this happen again? God's Spirit gave me this thought that it could happen again, but He would not give me the passage, so I had to look it up. All my work with time and the velocity of light, prophecy, etc., is the reason. I'm afraid to pray for such a thing, as bad things seem to happen along with God's works, but I know that time can alter when things near the velocity of light. Prophecy is enabled this way. All the proper factors have to be there though.

God tries to fix our mistakes. It is a curiosity to me, a physicist, why Jesus Christ never mentioned the strong ties to chemistry and quantum-jump levels. (Read John 21:25.)

God may be difficult at times but is never oppressive like the Moslem Taliban's total restriction on society. His Word is for guidance to lead us, our children, and our society from destruction, strengthening our will-power and developing good habits which carry on into our children's lives, making them stronger and better able to cope. Thus we enable the foundational principles of true love and avoid sexually transmitted diseases. He based His commands on His logical principles that we often are unable to comprehend and that are for the good of the whole. They keep us from greedy, spiritual forces.

God and Jesus Christ are all about freedom. We are not forced to obey. He wants us to know there will be consequences to our actions. These are physical laws, not God's forcing us to obey. Restricting as it may seem, there is a huge freedom through the blood of Christ, as I had never known before. This is

true and not just my personal perception, for others have verified this matter too. (However the Scriptures say we should not use Christ as a license to sin. Read Galatians 5:13.)

God is love and does not want to restrict us. He wants only to guide us and He points to the way of righteousness. It's like a great funnel. We enter into the narrow end of the funnel and it opens up into a great new world of joy and happiness, keeping our families whole and our minds and bodies sound.

The Holy Spirit had me pray for God's creation theory and elemental design in the atomic spectra. Furthermore, God directed me and I worked hard on these wave-lengths, so I put this matter in this autobiography.

It appears there is no evidence of God for us humans to detect by scientific methods. The Bible truth of the evidence of speaking in tongues is our evidence (Acts 2:4, 10:45,46, 19:6), if we are unable to grasp His magnificent creation. Because God is spiritual (composed of electromagnetic waves), His thoughts create things into existence. If then His thoughts create, then when we deny His existence or His miracles, He must leave our area or else He could become non-existent when we share thoughts with Him and His good spirits (i.e., angels).

So you see, we must have faith that He exists (Hebrews 11: 1-3). Verse six says in part, "he that cometh to God must believe that he is." Once God resided temporarily within the Ark of the Covenant. Also Jesus the Christ had the Creator within Him: "I am in the Father, and the Father [is] in me" is part of John 14:10. This is how He was able to perform such great miracles. Of course He had to have the thoughts from God, or else the Creator could not perform. If Christ had thought that God did not exist, then God not being able to un-create Himself, would probably just pop out of Him.

The same is true for us. God gave us His perfect example. Anything else but perfect, is simply not true about Christ. Did Mohammad or Buddha defeat death for us, and give an example of this, by raising someone (Lazarus) from the grave, and then Himself? The only way to the Father is through His Son.

God has many abilities, all finely tuned, like a well-oiled, finely tuned engine of an Indiana 500 car, or like note frequencies of a musical masterpiece. Without this fine tuning, they cannot work properly. We are a part of this fine tuning. We get cut off if on us we have dirt and grime that could get into this engine.

I found God extremely hard to work with. The stress levels were high. I am not qualified to say any more. Yet God still seems to have got through to me. He gave me so much to do, I failed to accomplish it. The devil was always there, confusing everything. I often built things three or more times. Spiritual time-travelers came to witness the events.

He lives in a time-dilated frame. That is why God is so difficult to work with. If you get off the path and travel down too far, then you get on another reference-frame. There are an infinite amount of paths. There is only one true path.

The universe is an astounding creation, developing and repairing, yet kept and reset on the path. God sent Christ as the repairer. If you think Christ could not be born of a virgin, then why not? Man can do something like that today, through artificial insemination.

God who created the heavens and earth would not need to be a huge force, only a small thing that initiated the growth of the universe. He has a tremendous amount of knowledge in assembling the elements for all good, not to be abused as some have done. He understands the simple, so being very small, He could start the creation of the universe, and once it's set into motion, it could continue creating itself beyond the conservation of the energy principle. Yet there is a huge bank of E.M., spiritual energy that exists and possibly can be tapped. This is why it appears as if God has lost control, but in the end all things turn out for good.

## **TO GOD BE THE GLORY**

### **EXTRA AND ADDITIONS**

I wrote this section, using revelation knowledge, for the scientific type of mind, those who doubt the existence of God and need proof of His existence. Perishing people are blinded to the gospel. Those who are in this category should read the gospel as it is written, and allow the Holy Spirit to reveal its wisdom to them.

**MAKING AND KEEPING CONNECTIONS WITH GOD:** Connections with God are very sensitive. The connection phases in and out, like a cell phone losing its signal. Some areas have bad reception. In my observations I have found some people unknowingly receive time-dilated information from the Holy Spirit. I have asked them if they knew of the source of their info, and they did not have a defined answer. In my perceptions, I sometimes came to believe there was no other way they could have obtained such accurate info.

I ran into an unusual guy in the parking lot of a small store. I could tell at the time he had the Holy Spirit within him as He helped him with his unusualness. He could somehow determine the day of the week, of any date, of any year. At first impression, I believed he was retarded, yet he possessed this unusual gift. He was clean, stood upright, and had a glow about him.

Maybe there is a trick to this, although I never researched it. People have recorded similar gifts, but most are not recorded, but we just run into them from time to time (in some people the gifts come and go). We have to be very careful of the source, however. If you look for God's gifts in God's people and the universe, you will find them. If you cannot see them, you have already been blinded.

Today this type of people can be identified immediately by their body language, or by the way they conduct their life. Also they occasionally share the same thoughts with one another, even as a group. I have been able to identify people that have these attributes of God. Often the Holy Spirit pops in and out for short intervals.

**WALKING IN THE SPIRIT:** Gideon chose a handful of men by watching them drink water from a lake. Instructed by God, he chose only the men that drank the water by cupping their hands (Judges 7:5-7). Then he took only these three hundred men into battle to defeat the Midianites. Why? because the Spirit of God residing within them directed them to drink the water with their cupped hands.

## 4. Angels

The wings of an angel are like solar sails. It's possible that angels, being mass-less, can travel at high velocities, nearing light-speed, bringing prophetic messages. The electron within the atom is near light-speed. Michelson Morley's experiment, as described within my theory, may explain that we already are traveling at this rate. Thus true prophecy must come from a slowing down of our present velocity.

If you have an angel that uses this system, you may have the gift of prophecy. God can see the future, commonly now called "time-dilation." (See Einstein's theory.) God can see overall events going to happen. Yet we as individuals can change things; we are all connected together in a great soup of electromagnetic waves. This soup enables time-dilation and other physical properties such as inertia and gravity.

THE GOLEM (THE SPIRIT WORLD): If you could imagine, what would a spirit that is a thousand years old want? Would he want access to the physical world? Or would he want to maintain spiritual form with its attributes, including weightless, time/travel and his joy-love-safety connections to God? Note that some angels have no will. They seek out human homes to live in, to love and cherish-nourish.

Some good spirits don't have wills. If they are with you and helping you out, and you walk into sinful situations, somehow the consequences become much worse. This truth has a biblical reference. "The last state of that man is worse than the first." is part of Matthew 12:45.

Angels don't have a will and seem to have difficulty with excessive physical things. So they try to avoid them. Maybe they lose some of their spiritual powers. I audibly heard "You're cut," meaning I was cut off from transmissions and helps. Yet they always came back. I asked for forgiveness and pled the blood of Christ. I'm sorry some of these things happened to them.

I believe His angelic beings will leave any area where they cannot work. Apparently they access the physical world within us, to perform miracles. Our thoughts must match theirs or else nothing will happen.

I was chosen. I knew some of the names of the angels: one was Penelope. They had so much love. I did not comprehend love. They showed me what it was. Somehow it manifests from a sinless nature. Sin corrodes it.

You love giving gifts to your sons and daughters, so how much more then the God in heaven would love to give us gifts! Messengers of God many times came to give me information, only to have evil spirits push them away. I heard their cry like children upset. They could not carry out their mission. Only when I forcefully turned away from sin (even evil thoughts or not reading the Word), were they able to get parts of their gifts through. From here I had to attempt

to decide (by logical reasoning) what the message meant. The longer I avoided sins, the more of the message I could perceive.

I've heard spirits come by to deliver a message. I've heard their cry of frustration and defeat, when they've been unable to deliver their perfected message. Counter forces that the Creator created, lost or stole much. I asked, "Why did you not make an off-switch on these counter forces for times of trouble or these great works?"

## 5. Spiritual Exhortations (Life)

As God told my pastor, "Don't let anyone accuse you of what My Son died for." There is no condemnation in Christ Jesus (Romans 8:1).

If you continue to read on, you may feel some internal crackling around the back of your neck where the spinal column and brain stem connect (if you allow healing to take place). This is the Spirit of God's removing internal strands that the devil uses to interconnect to you, much like the strings of a puppet or marionette. These are some of the chains that the Christian song speaks about, "the chains that seem to bind you." Some may experience their ears being unstopped.

Say to yourself out loud so that the devil can hear you, "I bind the devil and the strong man by Jesus Christ's name." We must first bind the strong man as Christ said. There is a saying; "When in doubt, cast it out." All this appears to be nonsense, but I assure you it is the truth from the holy Scriptures themselves. Don't fall back into sin, as I have done.

The devil might corrupt much of the work. I was unable to enter into the most holy of holies, the inner temple of God. This is a well-documented, biblical principle, a place of communion and prayer. I got part way in, but could not take the stress because of sin.

God tried to get me into His holy of holies again today. If you don't turn to God when directed, the stress piles up or creeps up.

THINGS FROM THE HOLY SPIRIT ARE: an actual hurting in your throat when your feelings are hurt. This hurt is from God's Spirit. Also feelings of remorse are from Him. Some people are like golems, not knowing God's Spirit is leading them. I see it all the time, but it is difficult to detect.

I had a world-class battle. I have found in my research, many people experience something similar but on a lesser basis. Your battle will be based upon who you are. If you're an important historical figure, or in the political arena shaping future events, then you will have to be more careful. It is tactical and spiritually based. Be on your guard, as something is always there, waiting to devour one, like a roaring lion.

I pray for this nation. This nation is in trouble as never seen before. This whole world is in great big trouble now. The discovery of gravity marks the near beginning of the end of times. There will be three and a half years of world peace and then three and a half years of tribulation.

Spiritual time-dilation is pure energy, spiritual life-forms with no mass, non-corporal beings. They are capable of traveling at light-speed and can pass thorough time barriers, bringing prophecy back.

The world of spirit-life is very strange. God has a type of time-controls by traveling at the speed of light and returning the information to us. This is how He enables prophecy.

God has set enemies against His people in the past, e.g., Jeremiah 15:6. I expect a city's turning from their sins just as Ninevah did with Jonah, could avoid a terrorist attack. In fact, I was told to place this insight in here. Someone will overt a terrorist attack, but the conditions must be correct.

Remember Balaam the prophet of God that went mad, and his donkey. See Numbers 22-24.

Walk in His way; the Spirit constantly using time-dilation principles can set up future contacts and opportunities that otherwise we will miss. He also can guide us in the proper relationships. If these things don't work out right, then you know the devil has misguided you or destroyed relationships. Only the Holy Spirit can correctly choose your mate. Matching waves between two people result in best relationships and whole children (don't neglect blood types).

If you have sin in your life, His guidance is minimal. Be careful any time the Holy Spirit works through you, as the oscillation occurs first up/then down. The devil masquerading as an angel of light will easily fool anyone not walking in the Spirit. Even the elect may be fooled. "For false Christs and false prophets shall rise, and shall show signs and wonders, to seduce, if it were possible, even the elect" (Mark 13:22).

It's a great mystery in the Old Testament. Yet in the New Testament time and beyond, anyone who loves and obeys me, Jesus said, God will make His home within that one. See John 14:16, 23. "Make a home in him"--that's the Holy Spirit living within us. Verse 26 says that the Holy Spirit will teach us all things.

This is one reason Jesus is called the Lord of hosts. *Lord* can mean the landlord, and we are the temple the Holy Spirit dwells within, part of the host. We are a temple for spirits. This is a great mystery, according to the Bible. I don't know why God kept this insight a mystery for so long.

God's pure Spirit is put into born-again bottles or our bodies. Putting new wine into old bottles, they will burst at the seams. The process of making wine produces gas, which if not allowed to stretch the container, will burst it. Old leather-skin bottles would not stretch. This precious treasure (God's Holy Spirit) copies everything we do. Some people do not have strong wills.

In Ezekiel 3:14 Ezekiel wrote these words: "So the spirit lifted me up, and took me away, and I went in bitterness, in the heat of my spirit; but the hand of the LORD was strong upon me." Although I myself was never taken away, I experienced this bitterness and anger whenever a strong, pure spirit attempted to communicate with me. We became one, but the interface was extremely stressful.

"Read Zechariah," a good spirit said. So I did, and it looks as if the spirit was referring to chapter one.

". . . Be not ignorant of this one thing, that one day is with the Lord as a thousand years, and a thousand years as one day" (2 Peter 3:8) . This appears like nonsense to us. What does this mean, and what are the physics that can allow this? God's spirits appear to me to live within a many-fold, time-dilation zone (this is a fact). As the velocity of an object approaches the speed of light, relative time begins to slow down. The weightless form of the spirits allows them to time-dilate.

Weightless spirits have become you (God within you). Our sin dis-enables His accomplish-ments, just as a person on drugs is disabled to a degree. A drunk driver is impaired to the degree he is intoxicated. I found that the spirit in the pure form cannot eat without discomfort. This is in part what fasting is about. Your body's field assimilates food, converting it. When you fast, no foreign mass is present, and the Spirit of God can fuse with you.

If you have the full armor of God, you are partially immune. Without the armor of God (Ephesians 6), the devil can pierce your own armor. So, think godly thoughts continually. The devil alters some of his chosen people so that they can perform certain tasks with or without their knowing it.

All my life I tried to figure people out, but could not entirely. I did not know there was another dimension to the equation. The spiritual world can enter and leave almost at will, affecting our personalities and judgment.

Matthew 23:6, “[They] love the uppermost rooms at feasts, and the chief seats in the [churches].”

God puts a new spirit in you. There is the spirit of a devil, the god of this world, and the Creator and His Holy Spirit, a heaven and a hell. We are getting close to the last days. Some say we are there. Let me make this clear: Just believing there is a God is not enough. You may think you’re okay, but you’re probably not! The only way to God is through His Son, Jesus the Christ. We must accept Christ as our Lord and Savior to be saved.

Being born again is when we turn from our sins and God places a new spirit within us (Isaiah 55:7 and Ezekiel 36:26,27).

You may believe this theory and the biblical references here as you read them, but only temporarily, because the devil comes immediately to steal away such beliefs (Mark 4:15, “. . . but when they have heard, Satan cometh immediately, and taketh away the word that was sown in their hearts”). If you have found that later you began to doubt what was said, you will know the reason. The devil has entered your body-field area unknown to you, manipulating it. The body's field may extend for many feet. The devil does not have to be in you to influence you. All this depends on how compact your body-field is. It can be like armor or extend out hundreds of feet. If it’s like armor, it can repel a lot of external influence. We do not have full control of this field, so we need the full armor of God. The Holy Spirit can aid us in putting on the armor; see Ephesians 6:13.

(Chemistry plays a vital role in our electromagnetic field. Witchcraft potions and biblical, holy anointing oil (specific formulas, not just olive oil) are examples.)

The devil is stealthy and works against these beliefs, stealing them away. So be wary!

Life and God are difficult at times. The devil stands in your way, and it seems as if God is not there. I **promise you** there is something there. Stay with Him till the end and you will be rewarded. It is hard to

determine what is from God or from the devil. Take the good and throw away the bad. Take every thought captive to the glory of God.

Most people think believers in God and His miracles are nuts and they have a good reason for thinking that, because the devil ruins anything God tries to accomplish, if he can get a chance, and many times we give him that chance.

God's Spirit always enters in through a person's side near the lower rib cage and usually can be felt entering, but not leaving. Weird as this seems, somehow God and Satan use the blood stream as an elevator to the head and brain, where they can enable various things, accessing our physical world through us. Electromagnetic waves are involved in all of this.

DOGS: Several times I went out into my backyard to see my dog Abby. When I opened the back door, the Holy Spirit stopped me and had me wait. Immediately my dog came around the corner to greet me. The Holy Spirit had led her. I received wisdom that this is how the animals were led into the ark. I checked the wind direction, and it was impossible for her to detect me by scent. I often liked to sneak up on her to surprise her. Startled, I wondered, is this really spirits directing my dog? I said, Stop it, and the spirit never did it again. I was then again able to sneak up on my dog.

Dogs (some pets) seem to have perfect love already; they know when to stop giving. How could a dog have it and you don't? Man, am I that dense (and I was)? It's best to double-over giving your love; then you will know for certain. Forgive seventy times seven (Matthew 18:21,22). After all this honest trial and error (had better get advice from above, as this is a hard one), now you will come to realize when to give, how to give, when not to give, what to give, and how to feel the atmosphere EM waves and identify the correct procedure to give to an individual.

There is a lot to this and it could be very difficult. If you have fear of your situation, especially with angry people, then you have not spent enough time developing perfect love.

LOVE: **"Perfect love casteth out fear." This verse applies to your enemy as well.** (It's

1 John 4:18b.) What? What does this total nonsense mean? Why am I going to give love to my enemy? Well, you have to try it to find out. It may take a lot, and a lot of tries to figure it out, as it did with me (because I held it back for so many years). Some will get it right away and others will have to experience it. Ouch! First you give until you wonder why you're still giving. Should I stop or give some more? If you don't know fully, then give some more (it might hurt). You have to find the boundaries (you're learning a

difficult thing). You're going to run into some bad and **fearful** situations because you don't know and have perfect love. You're going to want to escape from it.

It took me years to get this straight. You're not giving love to get love back. The more good and bad situations you have given in, the more perfect at it you get. This concept is a domestic-violence cure. Yet it probably will not work without God's Spirit (He has been around a lot longer and has it figured out).

All this should have come naturally, but it may not. It looks like nonsense to some, and simple truth to others, with all this trial and error and hurting yourself giving love. Can you identify the pigs? Don't give your pearls to swine. Do you fear these swine? If so, you need more practice. You may end up dead if you haven't got His Spirit guidance. Are you still fearful? Can you now (as the Holy Spirit guides you) cast out all fear? Intelligent people seem to need this teaching; the dumb seem to have it already, measure for measure.

Every once in a while I receive something from the Holy Spirit. After testing it, I can determine its source. Man's conscious mind is too much limited, to sense that the spiritual world which is two-thirds greater than ours, is affecting us so greatly. It's strange that most people don't even realize it, although a bunch seems to be able to detect it. Your mind has to synchronize thought for thought with theirs. They make their time-dilated existence happen by thinking things into existence. You're the host and they work through you. You work and live together, their spirit and your physical being. That's the physics of it; **you'd better get the foundation from the Bible.**

Like a transistor radio-receiver that tunes on to a particular frequency and then captures and amplifies a very faint signal so that we may hear it, the signal from God may be similar for you. You must be very sensitive to detect His voice. Tune in by following Jesus. This aligns your electromagnetic field and may place you on the correct octave or quantum level.

God's influence on your life can be very strong and you may not even know it. Or if you're very sensitive, you will detect His voice, but it always seems to be when you're not expecting it. This is a key and I don't fully understand why this is, but I suspect it has something to do with the things that cause stubbornness. He wants to do it His way. He wants to do it only His way, because He either has massively more experience or saw it in a future-time event.

I see this principle when building things. I choose my method and I just feel Him leave almost immediately. It's sort of like this word processor. I know how to spell this word and keep trying to get it right, but it just stays red. The correct spelling is up there in the corner, but I insist on trying mine. Don't lose hope, because there are some failsafe mechanisms He uses that can re-route your errors, so to speak.

SPORTS: Originally I took these notes for myself so that I don't forget what God did in my life. Soccer in the park I played as directed. I found He would tell me not to move, but I moved anyway to anticipate the next position of the ball. He was right. I was testing Him. This is what makes a good athlete: letting God's Spirit lead him. I saw it in a lot of people. I could tell when God's Spirit was directing men. They often shared similar thoughts to mine and other unusual things. (Cf. Isaiah 28:21.)

Volleyball was the same thing. He told me how and where to serve the ball, even when not to serve to a weaker person. If I did it anyway, the lucky streak stopped abruptly—even though the serve was just a lob, something unusual caused the weaker one to miss. I figured it must be some kind of spin I was placing on the ball. So against His direction, I put a spin on the ball, and it did not work. I noticed He was helping others as well during the game. It was their turn to produce. Spiritual forces were training them, unknown to them. If they followed spiritual instructions, they would perform. It was a reward-training method to enhance future guidance, like spiritual strings pulling puppets. How much of this spiritual stuff was happening, I wondered. Who was God guiding by this stuff? It came from a wholesome life also, not just on the court. I concluded it was beyond common sense; mere man could not perceive it. I saw it in animals as well, like my dog Abby.

I could see it happening during the game. It was weird. It had time-dilation predictions as well. It seemed those who followed the instructions that God's Spirit gave, did well. In prison ball (like dodge ball), God's Holy Spirit told me not to use the prediction of where to throw the ball, but I did anyway. A girl moved to the right as I expected, and I hit the girl hard, almost knocking her over. I could see she felt something was wrong and was emotionally upset. She was a bit hurt.

I saw these things happening in a time-dilated sense; it was weird. I wrote these words for my sake so that I could look back and know to remember. To get these attributes, one must allow guidance away from sins. It seems the more avoidance of sin, the more attributes one receives.

Some do not have wills, so God sometimes pulls them back from sinful situations. (See the Book of Jonah.) Others lose their attributes and helps.

ACCOUNTABILITY FOR OUR ACTIONS: The things we think and do affect us in ways we do not understand.

Don't pull any punches. Even churches that have Halloween, dressing up in demon costumes and devil outfits, are similar to World War II, when a man would wear an enemy's uniform from the opposing side.

"Thy kingdom come." (Matthew 6:10a) refers to a spiritual, governmental system that includes the physical realm (us). It has a monetary system like ours but is based on good works, tithes, offerings, giving, and love. In this way we buy and sell spiritual gifts and such. When the Holy Spirit accomplishes a good work through us, we both get rewarded. When we pay tithes or offerings, we are buying the services of the Holy Spirit. He visits us and attempts to do something for us or our loved ones. Normally we have no idea what He has done or may do sometime in the future.

I twisted Scripture. Yet I paid my tithes and offerings ten years until I reached the point of frustration. Then I quit for a while and then began paying large amounts in offerings. By giving, we receive some type of blessing from the spiritual realm. Mostly we are unaware of what it is or we take it for granted. God makes it appear as a lucky circumstance. I know otherwise.

Paying tithes and giving offerings are our response to God and His Spirit.

That preachers just want your money is a lie. Something or someone has twisted the minds of people that say that.

I can reach any star. I've got faith.

WATER BAPTISM: I recommend you be water-baptized on the Oregon coast (see the synodic-wave phenomenon, Book One of this document, and the Healing Hypothesis). This water should contain healing properties when mixed with faith (Dr. Carl Baugh of Glen Rose, Texas, has done work on this theory also.) God is unusual, and we can find Him only at certain intervals and on call with certain people. Be sure to go with a church like New Beginnings, formerly with Pastor Larry Huch, in Portland,

Oregon. **See the stirring-water hypothesis, photographs, and travel guide for directions to this area.** God's Holy Spirit has planned a great water baptism at this beach. To expect healing, try to turn from your sins completely (for at least one week), then go get baptized or delivered at this beach, and re-made. You need to be as pure as you can be to receive, or else some of the channels may be blocked off.

TBN: Through the Trinity Broadcasting Network (TBN) television ministries (by President Paul Crouch), much of the Bible has been opened to our understanding. Tapes of these broadcasts will reveal much. Most of the ministers on TBN are end-time ministers that God has placed there: Paul Crouch, Kenneth Copeland, Reinhard Bonnke, Benny Hinn, Rod Parsley, Jesse DuPlantis, Billy Graham, just to name a few. They can verify much of what I have said here.

Any one of these ministers can fall from grace. God forbid it. God will curse anyone standing against His ministers. Second Thessalonians 1:6, NIV, in part, is: "He will pay back trouble to those who trouble you." This is biblical! I can't say what the next ten to fifteen years will bring. In the last days a lot of false Christs, charlatans, will appear, preaching errors and a false, misinterpreted gospel.

## 6. Words for the Jews, the Muslims, and the Chinese

TO MY JEWISH FRIENDS (GOD'S CHOSEN PEOPLE): Christ the Messiah came two thousand years ago to graft in the Gentiles to the Jewish tree, thank God. If you do not accept Him today, you are still under the curse of the law of the Old Testament. You have only to accept Him to receive the end-time blessing reserved just for the Jews at this end-time. Keep your Jewish heritage, but it's time to accept Christ as the Messiah. You will not be alone; many Jews have accepted Jesus Christ, been born again, and received blessings from the Holy Spirit.

John MacArthur, a radio teacher, has a proof that Jesus is the Messiah. It's a long lineage, proving that Jesus came from Adam. All of it is based on Old Testament lines. (1-800-554-7223, Letters @ GTY.org)

WARNING: The messiah will again come in these end-times. Only this time this is the false messiah, masquerading as the true Messiah. He may fool even the elect. Without the gift of discernment, you will not be able to determine if he is true or not. This gift of discernment is from the Holy Spirit of God, that you will receive when you receive the baptism of the Holy Spirit.

Get baptized (full immersion) to wash your present and past sins away (Matthew 3:11a, Mark 1:4,5). Pick up a full Bible (Old and New Testaments) that is made for the Jews.

Zola Levitt, a very important Jewish man of these end-times, was one who accepted Christ as his Lord and Savior. His end-times ministry is for the Jewish people. Zola did much important research in Israel regarding the Jewish people, and his ministry still has explanations for a lot of biblical history and facts. You will find his works extremely helpful. Don't disregard his works. His phones are 1-800-Wonders and 214-696-8844, and his address is Zola Levitt Ministries, Box 12268, Dallas, TX 75225-0268.

When He took the Jews into the desert and put them through the turmoil for forty years, God was doing a miraculous work. He worked within their minds and increased their intelligence, their ability to think and create. The ratio of genius in the Jews is far greater--there are probably more geniuses that are Jews--than any other people. The Jews have the highest percentage of genius of any group of people. Unfortunately the opposite is probably due to the devil's attack. The devil has been trying to destroy the Jews for years.

Then there were the Nazis of Germany. How did they get away with it? Was it just because the Jews rejected Christ? If so, they were under the curse of the Law. Old things were done away with, in Jesus Christ.

My intent in all my writing was to make clear what life is, the infallible truth among all the lies and deceptions of alternate religious and new spiritual concepts. The ground-work was laid out thousands of years ago with God's chosen people, the Jews, recorded in biblical records. The problem of this alteration is one reason God chose the Jews. He set them apart and corrected their genetic makeup. A great outpouring of God's Holy Spirit for some of God's chosen people is here and coming again.

MOSLEMS: God is love and has mercy for us. We are expected to turn from our sins and to make tithes and offerings, but don't be a legalist like the Moslems. I'm not saying it's not important to turn from sin. Yet if we find ourselves saying things like "If I don't pray for another two minutes, God will not be happy, and I'll go to Hell," we should instead strive for an understanding of God's ways. We have a free will and an Advocate.

The Moslems have shown jealousy and great pride.

TO MY MOSLEM FRIENDS WITH ISLAMIC PRIDE: Why would He give this to me who am a Christian? Christ spoke of humility and of being humble. He says we are to be humble, but your culture has this tremendous belief that if you have your dignity, you have everything. "If you got your dignity, then you have everything" is a common statement among these people. This teaching is the exact opposite of the message of Christ. With Christians it's freedom, not oppression. As a Christian one is free to do anything, but we choose to follow the will of God.

CHINA, THE DRAGON IN REVELATION: It seems China should be the dragon the Book of Revelation refers to! (However it is Satan. Cf. Revelation 20:2.)

The Chinese have a warlord-like mentality. It's much like a street gang only on a huge scale. They take by force. In this world economy, men have taken our designs for tools to China, for them to make with their cheap labor, and we are in financial debt to China. I have been buying thousands of dollars of their

tools to try to save from financial failure my family, paper-box, manufacturing business. I can see the picture forming: the bear (Russia) and the dragon (China). There will be a great war.

My family business was forced to sell our building, and we all mortgaged our houses to support the business. When we moved, I could see on a much smaller scale what is about to happen, in approximately 2020 A.D. We as a nation are losing our manufacturing capability. U.S. manufacturing businesses are closing, as we are importing many items from China.

With China's physical (force it), warlord-like mentality, when they once again overtake China, the warlords will attempt to seize the world. Believing they now possess the manufacturing capability, they will easily but mistakenly think they can overtake with their warlord mentality. Internal forces (probably hard-line Muslims would back up threats of intermittent, internal, nuclear attacks) could force the U.S. into submission.

When she sees we are forced into submission, China along with Russia (the bear) would force their way into a master shipping-port area, which probably would be Israel, as Israel has been a huge pain for the Muslims anyway. Russia (the bear of Revelation 13:2) with their great, national pride will push into Israel. These nations together, using one another's attributes and their own desires, will make the final world war. It takes only several men with political prowess and powers to allow their people to form military machines. The rest of the people will just be following military-like orders, much as Nazi Germany did under Hitler. This does not seem plausible, but Moslem rulers don't believe that Hitler's, Jewish concentration camps ever happened anyway, thus making the scenario even more plausible.

You see, the complexity of today's technology is extremely frustrating to men (nations) that are full of people genetically raised by forced, natural selection in a warlord-like mentality, i.e., the offspring results genetically (a mind set) in inferior intelligence (or less genius per capita). Arranged marriages without love (marriages based on love are not politically accepted) could result in jail time.

Less genius per capita will result in fewer men that will stand in the way of this type of rule. If they do, they will be put in jail, as they were in Russia when they expressed ideas contrary to the state. Thus the gang-like, drive-by, stop-your-competitor mentality, only on a much larger scale, is a strong possibility.

## 7. Science (Physics)

I place this at the beginning to help those who seek genius. An August 2, 2009, editorial in *The Boston Globe* (“The Truth About Grit”) explained that intelligence alone is not sufficient for major achievements; success also requires a long-term determination and great focused effort.

Creativity is not understood, but it is well known that a relaxed and open mind facilitates it. In such a state, the mind can utilize its subconscious as well as the conscious components and better interface with any energy field outside the brain that may contain information and creative ability. This matter may be controversial, but it is well known that the brain can receive information directly from outside itself. “Breaking Through” editorial in INFINITE ENERGY, Issue 87, Sept./Oct. 2009; “Genius, Grit and Sanity.”

**Joy Dawson** (the mother of John Dawson, International President of Youth With a Mission) **said that God created Himself.** Then we know He built, created, the majestic universe of Himself, with angelic beings to maintain it.

He may have employed a small volume (a couple of waves) of æther, oscillating electro-magnetic fields. The universe was a self-building structure, acquiring intelligence from a minute, random, oscillating, electromagnetic field. (Now it is no longer random.) (The æther would have been a part of God, and still would be.)

Natural thinking cannot understand the many facets of God. I have described here some of the physics of His power.

We are already traveling at the speed of light. Our atoms all spin at light-speeds. Slowing down thus enables time-dilation and prophecy. There are multi-fields (levels).

Part of Ezekiel 1 about Ezekiel’s wheel describes the energy source and mechanics of the engine.

It’s a ship employing anti-gravity and/or an atomic rocket. The rings are high (loud) (magnetic resonance) spokes, etc. The eyes he described are circular, nodal-like points of resonance. There are constructive and destructive interference points (eyelets). The spokes are many; the emitters are like speakers (see the patterns from a ripple-tank experiment). See also the Rainbow computer program. This is a combining of multi-waves that cause an interference, blockage, a disconnection of the gravity field from the object (Ezekiel’s wheel), showing how Ezekiel could see the patterns. He probably saw it

in his spirit. Or, the audio portions would cause compression waves in the air. We could see these, much as we can see heat waves on the desert floor or just above the blacktop of the road (Scherelian photography). Keeley, Tesla, Bearden, and several others discovered gravitational anomalies and interfered-with gravity waves. Ezekiel's envisioned ship, as described, seemed to use both a gravitational canceling and a real, rocket-like engine. This engine incorporated atomic frequencies again. Search "ionization levels" on your computer.

God directed me and I worked hard on these wave-lengths, so I put it in this autobiography.

**INERTIA:** Using the principles of physics, I with help tried to find an explanation to the spiritual world. Communications with God are similar to the building up of a static field on a balloon or vanda-graph machine. The field builds up and then transfers by way of a discharge, back and forth between you and God-spirits. The absence of sin allows this field to build up.

When this field discharges or transfers from a higher to a lower state, communication information transfers at the same time. I once felt this field build-up, causing my hair to stand on end for no reason at all. It stayed with me for several hours and then discharged off slowly. Usually the levels are low and one does not feel it.

Your soul-wave collapses like the atom. Energy from living an almost sinless life is stored up within your body. Similar to an atom collapsing, your soul-wave collapses, ending your life in the present. Otherwise evil, spiritual forces may alter your body-chemistry's waves, enabling abnormal attributes at your death. If your waves don't collapse into non-existence, you as a spirit-form may not float, but gravitational forces may force you downward.

There are inertial comparisons as well. Either way, the energy is stored within a field and then transferred. There are inertial properties as well. (See chapter 14.)

**QUANTUM JUMP:** Quantum jumps are electromagnetic emissions or absorption of waves. In chemistry, often two chemicals don't combine. That's exactly the same as getting God's creative power to work in your life. There are multi-levels like atomic-energy levels. (You must look up the reference if you don't know what this is.) When you fall from some levels, you may have a falling dream. If you

have this dream, you might look back several days or weeks to see what event caused the dream (good or bad). This would be a good research study for those in the field of psychology.

Our body's electromagnetic field can freeze at different levels or plateaus. These are more commonly known in physics as quantum-jumps. The jump can be either up or down. A quantum jump downward is the emission of electromagnetic waves, such as or the relief from the use of drugs. Continual, only downward jumps will result in one's reaching hell as the final level. Your body's and soul's field is part of the surrounding of the world or universe or part of the æther (Elohim field) that forms everything. Your final quantum-jump will merge with the æther (Elohim field) which ties everything together as one. This is how we can affect the material surroundings around us.

QUANTUM DATING: Transistor-semiconductors will stop working. Semiconductors will stop operating. Semiconductors can be re-designed, using different materials or doping agents. Carbon-decay dating can be accelerated. Harmonics can accelerate the nuclear-decay rate. There's an error with the age of the earth. Electron tubes with hot cathodes will still work however, but at a lower power output.

We can render harmless, dangerous radioactive sources, through harmonic circuits.

I question my ability (connections to God) to report all this correctly. I do know that the ties to physics/chemistry are very strong, as God has revealed this to me.

WORDS I OFTEN HEARD FROM THE HOLY SPIRIT ARE THESE:

"Savor the attributes" (the attributes of the knowledge of gravity and theory).

"Slow down the world" (time-dilation from the body's molecular, velocity changes).

"Don't blow me, Todd."

"Hang tough."

CURSES: When Adam and Eve sinned, why was the earth cursed with weeds? probably because either the spirits controlled the weed growth on the molecular level, or something physical was altered, or both.

When they sinned, Adam and Eve altered the world permanently. Even weeds began to grow. They even altered the physical properties of gifts that they had. It's all based on physics laws and properties. Anyone can feel these quantum-jumps. If He is present in you, the Holy Spirit can and will help freeze you into higher levels, if you do not instead turn to sin for relief. It's like after a hard day of work, you are relieved. Then Satan tempts you. Choose the quantum-jump up and allow the Holy Spirit to set you at the next level up. The theory will further explain this as physics properties. It is not easy reading, however. You will require a good understanding of physics.

THE SIN PATH OF ELECTROMAGNETIC WAVES: We are connected to everything, and some of our bodies' fields extend out into the universe just like radio waves. They travel into infinity. The ground was cursed when Adam and Eve sinned. Weeds began to grow. Their new sin produced new electromagnetic fields and caused creation events, and the earth was set on a path of destruction.

Communication with God with sin in one's life is exactly like trying to get two chemicals to combine that will not. The communication is blocked off unless something intervenes like stress or the Holy Spirit. These act like catalysts, bridging the gaps between levels and enabling a reaction. One is on a different quantum level which blocks off interactions including healing. They form a quantum barrier.

GRAVITY-WAVE, GENERATOR PROPULSION: God will bring down a new heaven and a new earth like the landing of a huge ship on a new planet in a new solar system. The atom will destroy the old earth, hence the promise that God would never destroy the earth by water again. He signed the covenant with the signature of the atom (the rainbow).

BLIND EYES: Newton is given the credit for discovering gravity. What? Yet it was already there! It was just that no one realized it was there all the time. The spiritual world (the realm of God, angels, and demons) is similar, but most of us don't realize it exists or refuse to accept it. God gave me this idea in an attempt to open the eyes of the blind to the truth of the gospel. The scientific community and higher education disbelieve without proof.

Several hundreds of years ago communication by radio might have been considered nonsense. We might now consider that a type of brain-wave communication is possible. In fact scientists are studying this very thing. Let us be certain we are not getting cues from the devil who masquerades as an angel of light. If this type of communication is possible, then one cannot trust the source of his thoughts. This is why reading the Word is so important.

Since the invention of the radio, the truth about what gravity is was right under our noses, and we were so blind we could not see it. Don't be blind when it comes to the truth of the Bible.

I'd fear quoting Scripture because of further rejection. The Bible describes well the rolling back of the atmosphere as in an atomic-bomb blast and the sun and moon's going dark in the middle of the day. In Genesis 9:12 God says to Noah that He has placed the rainbow in the clouds as a sign of His covenant that He will never again destroy the earth by water. The waters shall never again become a flood to destroy all flesh.

If you spend a lot of time at the Oregon beach near a synodic phenomenon date, you may locate miniature water spouts of about ten- to twenty-foot diameter. They are very weak, and if you're not sensitive, you will walk right through them, not noticing them. Look for an increased feeling of dampness (humidity), air slightly swirling upward, and dryer-than-normal sand below your feet (a ten- to twenty-foot , circular, dryer area). One day I found several of these near a shipwreck area, which makes me believe they are common on some days.

The lines in the sand on the beaches are a world wonder, yet the scientists could not see or comprehend them. I wonder why they could not see them. Are they blind to God or has God hidden the lines to reveal them in the last days?

With all this knowledge and the gravity proof, we have no reason not to believe the Scriptures and that God is real and that Christ is the Lord of Hosts of the spiritual government. How are we going to deny continually what I have revealed as the source?

We seem to be in the earth-is-flat syndrome. Aristotle said the earth was not the center of the universe and they put him in jail, Louis Pasteur believed that microbes caused disease, and yet they were great men of science. This list of scoffed-at-men is quite long, God and Christ being two more. Well, I've not been humble here. The synodic theory is not really mine, and the scientific community appears to be blind to God. No doubt God seems to be extremely weird to them. Having access to time-future increases His weirdness by several times. Men also thought Noah to be nuts in his time. Strange as it is, the rainbow is the signature of the atomic spectra of elements burning on the sun. Suffice it to say that most people know little of what the Bible really says or simply reject it.

Second Peter 3:10, 13: “. . . The heavens shall pass away with a great noise, and the elements shall melt with fervent heat [rolling back atmosphere as in an atomic blast], the earth also and the works that are therein shall be burned up. . . . Nevertheless we, according to his promise, look for new heavens and a new earth, wherein dwelleth righteousness.”

Revelation 21:1: “And I saw a new heaven and a new earth: for the first heaven and the first earth were passed away, and there was no more sea.”

The body's electromagnetic field can store up energy by abstaining from sin, whereby this energy can be used for healing of our own field or transferring healing energy by the aid of the Holy Spirit to another who needs physical healing, or just keeping us healthy. People who share similar wave-lengths can transfer the most healing to one another. (Twins share thoughts; there's communication between twins. Through the Spirit of God there's transference of energy between two people.) The devil with all lying signs and wonders also can heal this way. Since he is a thief, he will probably damage your body's field unknowingly. When a person dies, his spirit is transformed but improperly, due to this damage.

There is going to be a lot of ridicule from this theory and autobiography. I firmly believe people are unknowingly taking cues from the devil, from internal or external, electromagnetic communications. You will find a similar communication between identical twins. They often have similarities that go beyond appearances. They may share the same thoughts, feelings, and even pain, and sickness, or sense when the other is in trouble. Because they are so much alike, they don't need many words to communicate with each other. They share the same patterns of electromagnetic waves. EM waves are the building foundation of the universe.

A NEW REALITY: Our world is not entirely comprised of what we can see and feel. Everything is composed of waves, electromagnetic waves. There is a spiritual world. Velocity time-controls and the dimensions of objects can change. Einstein's famous equations and his theory of space and time first revealed these matters.

A new reality is the Great Elohim perspective, a faster-than-light look into the future.

Raising your hands in prayer is like raising an antenna to transmit an electromagnetic message, as well as acknowledging you are willing. The wave-length and type of modulation are unknown; maybe it's just thought images carried on the æther (Elohim field). (See the theory for æther.)

Physicists are not going to believe this gravity theory, nor will they believe it came from the Spirit of God. I assure you that it is the true theory of gravity and it came from God (not the god of this world which is Satan).

Whatever you do in your life is recorded in your spirit-brain, and as a spirit you may live these memories along with other spirits of similar memories. The æther (Elohim field) net somehow records all our actions. If you're a thief, then you may spend eternity with other thief-spirits: always being ripped off, and so on and so on. Yet God can cast your sins as far as the east is from the west, remembering them no more. See Psalm 103:12. When you are born again, you are forgiven.

All we do is recorded in electromagnetic waves which emit from our brain and body. These waves travel outward from us like light from a candle and they never stop. They form a permanent record of our past, and people can read them much like a long tape, streaming from a tape recorder. Every murder, every crime one commits, is recorded on electromagnetic waves like turning on a light, and the light travels forever. These records will also confirm God's judgment of us. These records are accurate, just like the video from a VCR. This wave emission from our body is fact.

There are electromagnetic pathways similar to radio-frequency transmissions. Everything is comprised of waves. All solid matter is comprised of waves. Even the atomic particles are constructed from electromagnetic waves.

Because your waves must be altered to affect things, this wave-length is attracted to mass (has physical, measurable weight).

As He spoke, God created the heavens and the earth. His voice is electromagnetic in nature. Lucifer was like a pipe organ. Having multiple pipes with his voice, he had creative powers. Some of God's mighty angels have similar attributes. There are different classes of angels with different purposes. Possibly the siren has creative powers.

Christ in His absence of sin first ascended up into the heavens and then oscillated back down into hell. Did He do this intentionally or was this also a physical wave-property of the universe?

FILLING IN THE VOIDS: After it has occurred in a place for some time, evil leaves a negative void which positive forces can later fill. The longer the occurrence of the negative, the stronger the filling in of positive forces will be. Wave mechanics are the base of it, and it is oscillating from evil to good. These have time frames as well. Shall we do evil so that good may come? of course not. (Cf. Romans 6, 7.) God has quantum jump-levels as well. People are the same way; they turn from sin and then Satan tempts them again and again. This jump-level forms an up-down wave motion in the molecules in your body. (See Psalm 107:23-25.)

Thoughts form your body's field, or every time they fire, your neurons emit a signal. Billions of signals generated within your body are emitted into space, traveling out at the speed of light. Incorrect actions or thoughts (sins) can cause not only sickness but other problems, especially with God's Spirit. God's Spirit (a conglomeration of electromagnetic waves) is in the purest form, i.e., no sin whatsoever. If He is within you, His Spirit wars with your complex fields, breaking parts of the harmony. The more sin, the more harmony it breaks, much like an un-tuned instrument in a band. All this occurs with electromagnetic waves alone. I will explain later how chemistry works in the exact same way.

God's Spirit, when residing within you, can help align His waves with yours, producing healing and various gifts. If two people are sharing similar waves, one may heal the other, where another person may not. If the spirit within one knows healing is possible, and another does not share his belief, then there is a wave mis-match (this may also be related to a location within your mind). The spirit can be extremely small, and control and merge with the electromagnetic waves from neurons within your mind. This is one reason faith is so important. Faith however has no effect unless it matches the Holy Spirit's waves of thought patterns. Many or all waves are inter-connected, and quantum jumps up/down occur, initiated by actions of sin (an energy release or down-wave size) or a binding of two waves (an up). See my book of chemistry theory. The Spirit of God can initiate the binding of waves.

Noah probably saw the first rainbow, due to the high amount of water in the atmosphere. Properly shielded from these waves, our lives can be extended long. (See Revelation 21:4, no more death.) I do not expect many people to believe me. As the Word says, they would rather believe a lie than the truth. In Maui, Hawaii, in Waikiki in the Galleria, there was a huge water-filled aquarium called "the tube." The aquarium had a walk-through tube that wound through the middle of the aquarium. Thus standing in the center of the tube, a person was completely surrounded by water on all sides. A person should have had a calming feeling when inside the aquarium, as a synodic gravity wave was occurring. The water in the aquarium greatly attenuated or shielded the electromagnetic waves from the body, although there was a metal stairway there that may have carried some electromagnetic energy.

Every time I attempted to walk better, the devil was there or the wisdom just plain overloaded me physically via stress and/or my puny mind. So instead of direct dictation, I worked mostly with concepts similar to the Book of Revelation and a relatively small amount of audio-communication. The electromagnetic waves of the æther (Elohim field) net intercepted or interfered with the Holy Spirit's transmissions.

This energy field permeates everything like a mystical force (see the synodic theory on æther, Elohim field).

Electro-cardiogram and brain-wave machines detect these bodily electromagnetic fields.

If this theory proves out to be true, then this will be the end of time, and there will be revelations of time no more. Great earthquakes will occur, some produced by man-made gravity waves. As in the days of Noah, the earth will be on the verge of destruction. Men will have become more and more evil. Without the principles of being born again, mankind becomes more and more evil. Also man's life span will increase, compounding the problem. Massive amounts of energy will be free-drawn directly out of mass or the æther (Elohim field).

AGING: People are going to live longer, maybe to 120 years or longer, partly due to our ability to travel and to metallic shielding from gravity waves. Traveling de-phases our bodies from the slow moving, heterodyned-gravity waves that shift like ocean tides.

I'm convinced the aging hypothesis is correct and that the great amount of water in the atmosphere absorbed naturally occurring, electromagnetic waves. These allowed people to live beyond a thousand years. The evidence is in the finger-tips of the elderly.

I have definitive proof that natural, electromagnetic waves emitted from the cosmos cause

aging. (There are other factors also.) They center approximately in the 600 Mega-Hertz range. It's important for you to believe me when I reveal this startling fact to you. "The electromagnetic waves oscillate within our bodies, which are mostly water, much like a wave on a string. There are nodes and areas which do not absorb the waves. Our finger-tips are an obvious nodal area where the waves are not absorbed. Believe me on this: We can easily see visual evidence in the finger-tips of older people (their finger-tips appear much younger and pinker than the hand)."

WATERBED: I recommend you immediately get a waterbed to sleep on at night. Water absorbs this band of electromagnetic waves and will diminish aging by stopping these waves from one direction (down). Only being surrounded completely with water will completely eliminate most of them.

I am absolutely certain of this; do not doubt me. You can be much healthier also. In biblical records before the great flood, people lived a thousand years or less. At this time the earth had a great water-cloud mantle that absorbed these waves.

My bed was aligned north and south. I believe most of the waves were in this north/south direction. It is possible, in my condition, that something else was going on, however. I did attempt to detect motion by reflecting a laser beam of a mirror lying on the bag. It detected no movement in the short time I watched it. It might detect movement from the wave motion only at certain times of the year.

I have a simple, microwave-oven experiment that shows this evidence in the tips of long objects. It's an unusual experiment involving a waterbed and is for a bag-type waterbed only. Add enough rock salt to the water to become about as salty as sea water. Warning: this will ruin the bag and produce a toxic gas after several weeks, so be careful. Now as usual, sleep at night on it. Electromagnetic fields are constantly sweeping the earth. When this field passes through the salt waterbed, it produces a strange, internal-wave motion. The results are a peculiar, intermittent, wave motion. A light sleeper will be unable to sleep well. Some nights will be quiet and some difficult, with many annoying motions.

I attempted to build a gravity-wave generator in 2001. I attempted to pull water waves on a small lake. It appeared there were some effects which I video-taped. It was nowhere near to what I had dreamed. My experience with microwaves was too much limited and I could not find appropriate or financial backing help, combined with a huge lack of time on my part. I was led to believe spiritually that I could alter local time by using such a device but only minutely (not detectably) and probably only on chemical reactions involving water molecules, for which it was tuned.

I have pulled some punches, but they relate to the last days. Stellar-gravity waves can cause earthquakes. Once I had thoughts, dreams, and visions of parting the Columbia River with my gravity-wave simulator. Then I wanted to get out of this. It got too big.

Sometimes when a strong gravity wave passes (whether synodic or not, I don't know), the wood joints in the building crackle. People also attribute this crackling to foundation settling. If you're sensitive, you may be able to associate a feeling to the crackling sound of the joints.

People emit from their bodies an electromagnetic field that enters the surroundings. People have often described this field by the following: he has a sweet spirit. Contrariwise, "When he/she enters the room, he/she turns the air blue." "One bad apple spoils the rest." There's a bad atmosphere in some bars, etc. We know that much like chemistry, these waves enable spiritual forces and can influence other people or adult-parent relationships or just friends. Some people avoid confronting so-called lower-class people. It's not a matter of being unfriendly; they just prefer to block off evil influences.

TWO-THIRDS: I don't know how the devil is able to do it, but he is always there to steal or destroy any gifts from God. He lives in the æther (Elohim field), and that field is two-thirds more massive than our visible world-universe (scientific fact), and he has access to time-dilation. We're lucky (so to speak) that only a third of the angels fell.

The spirit world is more real than our world. The latest astronomy research shows that the universe is expanding at an accelerated rate and not at just a constant rate. In order for this to happen, there must exist something invisible to us. Two-thirds of the universe is dark matter, so called because it is invisible to us. I believe this is the realm of the spiritual world. (Second Chronicles 6:1, "The Lord hath said that he will dwell in the thick darkness.") God does not seem to be here, but let me assure you there is something there. [The third member of the Trinity is here on earth: the Holy Spirit.]

Because they are so much bigger than the physical world, spiritual forces can easily account for every move we make. The Hubble space telescope has proved that there are two-thirds more mass than is visible, and it apparently exists everywhere and cannot be seen. So the telescope shows the spiritual world is two-thirds larger than ours. A previous theory on the slowing down of the expansion of the universe is an error, and the universe is accelerating outwardly instead. See the study on æther, electromagnetic fields.

The universe is growing slowly. It is not in a steady state, as we once believed.

Thoughts from our minds form an electromagnetic, three-dimensional map much like a hologram. The Spirit of God interfaces and occupies only the godly regions of this map. Each thought emits its series of

patterns. Anything that does not correspond with the thinking of God has no phase-relationship and is annulled. An example is worshipping of idols. In order for a person to establish communications with God, he knowing that He is God the Creator must think he is not. The frequency of the receiver must match that of the signal, much like tuning in a radio station.

In biblical days, God could not explain all this to the people; He just said to have faith and do it. It was beyond their ability to comprehend. Now with modern-day, scientific knowledge, it is comprehensible.

God's Spirit is able to set a path for future events, using the principles of 1. Time-dilation (weightless spirits, instantaneous acceleration), 2. Internal guidance (you), 3. Your body's energy-molecular storage, much like a storage battery, connected to the æther (Elohim field) and earth by them. (Sexual intercourse is a release or discharging of this molecular battery. The more power in the battery, the greater is the miracle.)

Your crown, much like a zero-resistance, torridal coil, may store information.

We know that a tremendous amount of energy is stored within mass, which the spiritual or physical realm can tap into.

Somehow in a dream, a spirit gave me the initial equations, to search for fundamental wave-lengths which formed the atom. I had quantum books and knew much could be derived from them, using only mathematics, but this was unique. I heard a lot of noise from spirits and I tried to glean out the good and useful stuff. It was very difficult. The program got nearly finished and it seemed to do some weird stuff. I converted these wave-lengths to audio frequencies and attempted to use them. I did not have much luck. Due to lack of time and finances, I was unable to complete the circuits completely. I made several audio disks of the elements. They sounded weird but had no effect without filtering and amplifying the feedback from the elements, which I should have done, but did not.

I was led to believe by the Holy Spirit that God had left a message in the atomic spectra of the elements. Maybe someday someone will be able to find it. I believe it is in the fundamental wave-lengths, but I was never told how to find it. This program was also to be used to drive the rocket engines or gravity wave-lengths in the moon rocket and the other rocket, to escape from earth and find the "green" planet, the new heavens and the new earth.

THE HEISENBERG UNCERTAINTY PRINCIPLE: The information from God has wave-like particles associated with it. If you try to detect it with your mind, it is blocked. It is also sourced from a God-field, which requires a righteous life. With sin in a life, the devil will intercept it as well.

Body capacitance affects the old AM television signal on certain channels, when you walk by the antenna. Certain people in the room nearby can affect signals, causing disturbance. Much as body capacitance affects the tuning, your thoughts can cause interference. There's oscillation, from good to evil. Following instructions from above, it ends up bad. There are variations in the time-field. Wait until the last minute for final instructions, as the time-field event has altered, countered by unseen forces. What is this time-field with its conditions and variations? How can this be and why is it so difficult to work with? Must I have to be so perfect to work with it? Troublesome oscillator! Ouch, the Holy Ghost says through me. Ouch again. Like the rainbow, it moves when you get there. I need help.

On the body are many poles, as brain-scan, electro-cardiogram, and bio-feedback machines and acupuncture can verify. Every time a light is turned on (or an electrical current device), an electromagnetic wave is emitted into space. You might see this by running your electric razor and turning the A.M. radio. The radio picks up the static the razor emits.

Chemical attributes from biblical anointing oils through quantum energy-level matching, further enable this power. I've heard that a minute amount of mass is lost when a person's body dies. Some feel that this is the soul's leaving the body. When we die, our weightless spirit floats in a sea of electromagnetic waves. Sin causes a minute increase of mass or weight in our spirit bodies. When we pass away unsaved, our spirits may sink within the earth or be earth-bound, due to this very slight increase in weight. This is all related to wave-length matching, just like in gravity and chemistry. (See my theory book.)

Remember the fission of an atom. The atom electrons collapse into the nucleus. The atom is destroyed. Similarly your spirit composed of waves, can attain a similar state. When you die, your spirit will die along with you. [See Ecclesiastes 12:7.] Your body as a shell keeps your spirit-waves intact until death. You will have everlasting death after life, if you sin it away.

I would like to emphasize the total freedom I experienced after being re-born. This freedom requires responsibility, or else sin creeps in and limits God's ability to guide us. The masquerader fills in the

voids. Without freedom, there can be no love. Reckless freedom ruins love. "It was for freedom that Christ set us free" (Galatians 5:1, NIV). He created a massive, righteous wave (this is a physics phenomenon), an up-and-down wave-event, based entirely on real physics properties, involving inertial-arc, creation-fields.

An example of a high-precision event is setting up a future event involving the encounter of two people at any given moment. Two high-velocity, capable spirits must time-dilate and then return precisely to our time-frame, relaying the seen, future events back to our time. Someone or something must lead us up to the event, in order to sequence the moment. Any hindrance dis-enables the event or hinders precision.

Sin, then righteous living, oscillates up and then down. This rule applies to all people. The deepest sinners with the two worst problems can turn toward God the furthest and do the greatest works. The Bible says the prostitute will enter the kingdom before us. Read Matthew 21:31.

## 8. Scientists

Many scientists of the past and present have been and are Bible-believing Christians, sinners saved by grace. Nevertheless, people have widely fostered the opinion that science has no place for God, that scientists should have no faith in the Bible. Particularly damaging has been the pervasive propaganda claiming that science has disproved creation. No scientist can be a creationist, it is said; all true scientists must believe in evolution, it is alleged.

Following is just a short list of Christian scientists: Francis Bacon, Nicholas Copernicus, John Dalton, Michael Faraday, Galileo, Christian Huygens, Johannes Kepler, Joseph Lister, James Clerk Maxwell, Samuel Morse, Isaac Newton, Blaise Pascal, Louis Pasteur, and Werner von Braun. Read *Men of Science, Men of God*, by Henry M. Morris, Green Forest, Arkansas. Master Books, Inc., 1982. ISBN 0-89051-080-6.

I keep a copy of James Maxwell's prayer on the wall of my laboratory. I know/believe that the Holy Spirit guided many of these famous scientists, albeit somewhat unknown to them. Here is his prayer:

Almighty God, who hast created man in thine own image, and made him a living soul that he might seek after thee, and have dominion over thy creatures, teach us to study the work of thy hands, that we may subdue the earth for our use, and strengthen the reason for thy service; so to receive thy blessed word, that we may believe on him whom thou hast sent, to give us the knowledge of salvation and the remission of our sins. All of which we ask in the name of the same Jesus Christ, our Lord."

Maxwell (1831-1879) developed a comprehensive, theoretical and mathematical framework of electromagnetic field theory, embracing all types of energy systems (accepting gravity and nuclear forces) within the famous "electromagnetic wave spectrum." Albert Einstein called Maxwell's achievement "the most profound and most fruitful that physics has experienced since the time of Newton."

How Maxwell was able to believe in God was once incomprehensible to me. It took a catastrophe for me to become a believer. Sin simply separates us from God, and one believes the lie.

Scientists often exhibit genius attributes like Tesla (1857-1943), whose father was a minister (these gifts are handed down through family lines).

One extreme example of the truth that a sinner believes the lie, was a famous man and a genius (and I cannot remember his name). In college economics he was far advanced beyond all his classmates and astounded his professor. Developing equations on economics, he was led by the Holy Ghost. Unknowingly, he was given this wisdom from above. Later he must have made a sin-mistake in his life, as he became irrational and had thoughts of space aliens. He ended up in

a mental institution (messed up by demonic powers in the battle against good and evil). He began saying things like that Martians or some beings were going to invade the earth. Later when he came to his right mind, he said, "But I came from the same place," meaning that he had received info from the same place in his mind. He trusted his thoughts so much that when the devil took over, he simply believed the spirits, no matter how absurd they were. See, the devil had through the process of oscillation intervened, filling the void. The story of this man is an excellent example of what can happen when we stray. This tragedy happens to a lot of people.

His story was on an Oregon Public Broadcasting TV special. Look up this show on the OPB web page, in their show listing. Go to [OPB.org](http://OPB.org). Their phone is 503-244-9900.

## 12. Noahic (Noachian) Spirits

Noah's family of spirits were the good angels that guided me to write this gravity theory, a difficult thing to believe, I admit. They gave it to me that it might open the eyes of the blind so that they might see the light of the truth of the gospel. (Read 2 Corinthians 4:6.) If this gravity theory is the truth, then one might assume the words written here in this autobiography are also the truth. It could fool even the elect.

I have the full theory including inertia and time-dilation. We can explain all this, using rotating electromagnetic, helix waves. A good spirit of God gave all this to me. I'm not certain if I should reveal his name, but it's in the line of Noah.

The demons became unstoppable. Disgusted, I told Noah's (good) spirits they should be happy, as anyone could do that much work on his theory, which seemed to be as long or as difficult as any book in the Bible. I could not take any more.

Partially guided by Noah's family spirits, I wrote a computer program which I named "Rainbow." Analyzing the atomic spectra, I was led to believe it's possible that transmutation and elements break down to produce controlled energy. I was given information as well as to how the compounds combined and about the structure of the atom. "Battery" I often heard from a good spirit. I spent many hours developing the program. The devil was always there to try and confuse me. Still, I proceeded in writing the complex computer program. It was very difficult trying to get cues and communications from angelic spirits that my sin had separated me from, much of the time.

During my search for God, I went to several seminars on Noah's Ark, at which biblical scholars that had visited the Middle East in search of remnants of this ancient vessel, were teaching. I bought their books and videos. It was an interest of mine at the time. The seminar sites or videos are probably where I picked up Noah's angelic spirits.

## 10. Education

We should again teach the Bible in our schools. We would teach it as the truth and not force it. The Spirit of God can move around the boys and girls within the classroom and intervene through fellow classmates. The Spirit of God can work through and within classmates, so that they would exhibit behavior not possible by other means, and He can guide them in making right decisions.

A class can resemble one body. Control is not possible through adults alone. Youth can pick up bad thoughts that they may act out. A lot of bad habits and ideas pass from child to child without the knowledge of adults. Children keep secrets from adults.

I attended public school when school prayer was banned from our schools. I remember a change that took place. The boys and girls that once were vocal to other classmates, similar to monitors, slowly became silent. These special children had been like controllers that squelched evil with a few words, before it had a chance to take root. They had not often had to access an adult, and were quite successful.

So the Spirit of God is able to work from the youth. Youth take the lessons they learn from one another into adulthood. Knowing it's not a fictitious character that looks at us from above, we tend to be more careful about what we do. The result makes life simpler.

People seldom required government controls like child service, and people seemed to be more honest. We did not require the big, overseeing eye of the government. There was a reduction in crime, our jails were smaller, and we needed less government, as the people governed themselves.

People have got all mixed up by not following and believing God. Those who refuse the truth but have pleasure in unrighteousness have polluted the word of God. (See 2 Thessalonians 2:12.)

The teaching of evolution in our schools is error. There is much evidence to the contrary.

While a species may alter its appearances, it never changes into another species. A bird will never change into a dog, given enough time. Some aberrations the devil made, exist, however.

Job describes a dinosaur (a behemoth) in Job 40:15. His tail is like a cedar; there are no animals that have a tail like a cedar. In Job 41 he describes a leviathan (a great fish). "His breath kindleth coals, and a flame goeth out of his mouth" (41:21). This flame may be from burping flammable, methane gas during digestion. Then sparks ignite the gas from the grinding of his teeth or his crunching of small stones containing quartz. Agates are quartz (silicone); grinding two of these stones together in your hand in the dark, one may see electrical sparks. It is common for some animals to eat stones. Birds eat rocks for egg formation. There is evidence that man and dinosaurs existed together at the same time. **Also see Job 40:15.** There is fossil evidence of human footprints within a dinosaur footprint. These huge beasts were previously called "dragons" in fairy tales. The great flood probably carved out the Grand Canyon. There is a huge lie proliferating with regards to evolution.

The book *Grand Canyon: Monument to Catastrophe* by Steven A. Austin brings truthful and valid arguments, contrary to scientific theories, that a great flood carved out the Grand Canyon.

Throughout time, the devil working through atheistic people has tried to cover up any evidences of God, attempting to blind the masses. He recently is working through our school system, removing books and references to God, starting with school prayer and even in some cases the flag salute, because of the words "In God we trust." How could this happen? ungodly Masonic men on the Supreme Court.

School counselors tell kids it's okay to relieve tensions and anxieties. This advice is wrong. It blinds them to God.

We'd better rear our children up right with God and with His words in their hearts. It can be very difficult to turn from the sins we acquire later in life.

## 11. Prophetic

There is going to be another Noah.

I believe a similar miracle to Moses' parting the Sea may happen again. Maybe it would be on the West Coast on a major river.

Nimrod, the great grandson of Noah, built Nineveh. “. . . There shall no sign be given unto [a wicked and adulterous generation], but the sign of the prophet Jonas . . .” (Matthew 16:4). It appears to me that a big fish will swallow up someone, as a sign to repent. There will be a Great Nineveh, possibly on the West Coast of the United States.

A prophetic message from my life is about the Great Nineveh. The story of Nineveh will occur again (see the Bible Book of Jonah). Perhaps a terrorist attack will destroy a city, if a prophet of God does not intervene. I believe this city is near a coast in the United States. I do not know the name of the city. (See also the sign of Jonah and the whale in Matthew 12:39-41.)

There could also be accelerated growth of plants by incorporating sonar or electromagnetic waves, with specific frequency sets, chosen in pairs or triplets. God accelerated plant growth to shade Jonah.

Two other prophetic messages from my life are: they will make a postage stamp of the synodic gravity theory and it would be a beach photo, and thousands will be baptized and healed in stirring water on the Oregon coast, and these latter events might become a movie.

The government oil-well program, something about Northwest Christian Center, the beach house, the story about a huge diamond—these are only some of the prophetic things I could not attain, due to sin. It was like having a carrot, like for a donkey, in front of my face. “You have to turn because you never learn” is an old saying.

## 13. Third Grade

In about the third grade I picked up a bad habit from some neighborhood boys. I got sick soon after, with a high fever. As I recall, I remember submitting to this high fever, and as soon as I did, I immediately felt better. I did not understand then what had occurred. I know now that it was from the devil, forcing God's Spirit out of me. The Holy Spirit placed within was forced out and replaced by a devil spirit. I believe now a demon got in me.

After that, I was no longer blessed and no longer on top of every situation. God was still close by, however, but I had a weak access to Him.

I know now that these demons have been with me since I first sinned in this way, many years ago in my youth (about the third grade). They are quite stealthy and can initiate thoughts without your knowing it. At one time I was so much influenced by them, I could hardly hold myself back from making sexual advances toward women. These temptations have subsided now, and I am left to contend with my natural desires.

I see all these people that were trained by God and had no idea of it. They still respond to His cues. I see this when He answers this prayer that I agreed to say for other people. I lost His training as a youth when I became sexually immoral in the third grade. I knew something had happened, but could never understand what, even though the tormenter constantly accused me of it. I recall the thoughts going through my head over and over again, "You should not have done that."

These people that hate God and Christ have been counter-trained to feel so. Doctors say that touching your members is okay. I may have been set up by the devil. I recommend getting married to avoid this short circuit of your body, which causes a breakdown in your armor of light.

## 14. Addictions and Other Sins (How These Can Ruin Spiritual Strength and Hinder Spiritual Progress)

VARIOUS MEANS CAN SHORT-OUT MIRACULOUS WORKS: One is sexual sins, which are probably the worst because if there are any evil spirits there, they could walk through your field armor and gain partial access to your mind, initiating thoughts, etc. Other sins affect your armor field as well, such as some abused drugs.

Sexual sins short-out the body's electromagnetic field (the armor of light or aura). A massive cascade of electrical energy (shorted-out) flows through the nerves, breaking down one's protective field for seven days. This I personally experienced through an attack by demons in 1982. There is quite a bit more to this incident, but I choose not to disclose it now. Suffice to say, demons can get into our mind and cause all kinds of problems.

SEXUAL SINS AND THE SHORT-CIRCUIT: Sexual sins cause a direct short-circuit and allow the demons direct entry if they are aware and nearby (these are filthy spirits, and people can often smell their presence, which is a bison odor). A massive surge of neurons firing shorts out the body's electromagnetic field can leave an opening that evil spirits can enter. This field closes or repairs itself after a period of seven days. However it closes up, it leaves the evil spirits within. After seven days of abstinence of all sin, God can heal greatly through the blood of Christ or else only minor healing can take effect. Usually the healing occurs when one turns away from a sin.

After adjusting neuron endings by connecting them together or adjusting electromagnetic waves (even chromosomes) to increase or enhance sexual pleasure or aberrations in your surroundings--after they have adjusted you, your spirit will no longer be fit for the kingdom of God. ESP, etc., can be results of these adjustments. Your mind and neuron paths emit electromagnetic fields which can affect your surroundings, including other people's thoughts, and can misdirect you into evil situations. Witchcraft is similar. It's adjusting of your thinking, producing corrupted fields.

This possession possibly alters the DNA code and produces physical, sexual deviations in the offspring. This change may not appear for many generations, however. An ancient race of giants was created when fallen angels procreated with women on earth. (See Genesis 6:1-7.) Goliath may have been a remnant of this race (1 Samuel 17).

Sex is enjoyable and natural for married folks, but if we play with forces of creation, something we don't want may happen, and we are going to get burned. It may even appear in our children several generations later. One biblical reference for this subject is Jeremiah 32:18.

The old wives' tale that sexual sins will cause blindness has some truth to it. They cause blindness to God, or separate us from God.

This attack by demons is not going to happen to everyone who sins. The combination of the witchcraft love potion and sexual sins caused demons to attack me. It was a little worse than this. I'm told not to go into a full description. However in these last days, these problems are occurring with lesser sins. It depends on your present level in the heavens.

My experience obviously does not happen to everyone who has sexual sins. They however will blind you from God's will. I am sure the combination of the witchcraft, love potion, and all my other sins made the situation much worse. It's going to depend on your circumstances, where you have been, or who you have been with, etc. I won't go into it further. It's enough to know that sin separates us from God.

While in this fight for my life with the devil, I took steps to become healthier to resist the devil: exercise, no sex, etc. I was getting in better condition, yet was still possessed partially. This is a warning for those who think the devil will look like the devil. Let's not be fooled by an attractive person. He may have a very healthy appearance as I did. I was jogging and doing nearly everything correctly, health-wise, to alleviate the problem.

I spent one week in a psychiatric ward under medication. The doctors gave me the drug Haldol which I hated and later refused to take. When I got out, the doctor told me sexual sins were normal and not to worry about it. Several weeks later, after following my doctor's advice, demons attacked again. This time I had some medication at hand, yet it could keep the demons at bay only by making me feel sick. Since they were in my body, the demons had to retreat or be sick also.

When I was in grade school, I took classical guitar lessons for several years. One of the pieces I enjoyed playing was "House of the Rising Sun." I played it over and over. It was one of my favorites. I always

wondered what it was trying to say. Now I know it was speaking about a house of prostitution. My autobiography is a similar warning, only much more complete. It is a warning from God.

These people that hate God and Christ have been counter-trained to feel so. Doctors say that touching your members is okay. The devil may have set me up. I recommend getting married to avoid this short-circuit of your body, which causes a breakdown in your armor of light.

ALCOHOL: As silly as this idea seems, there is a demon distribution system dispensed from a tap. Alcohol not by a coincidence was once called "spirits." Alcohol has an evil spirit that pours off the person who dispenses it and onto the rim of the glass.

Spirits also flowed off people who dispensed alcoholic drinks, but rarely were present when the bartender opened my non-alcoholic beverage. They rarely were on bottles of real beer that I opened. It was easy to blow or knock them off the top of my beverage. Coffee I would pour from cup to cup, to knock them off. They seemed to pour from one cup to the other.

Many bartenders are chosen instruments of the devil. Demon spirits flow off them into the drinks they make. Resting on the side of the glass, the spirits are able to enter your mouth when you become inebriated. All the capped drinks (bottled beer, etc.) in my area don't have this demon spirit, so I assume it flows off either the tap or the bartender. You can feel these spirits around your mouth area, if you are very sensitive and aware. There is a biblical verse that says that those who mix/dispense strong drinks are condemned. See Amos 2:8 ("... the wine is condemned") and Proverbs 23:29-35.

I believe something similar must have happened in Nazi Germany. Evil spirits spread by way of alcoholic beverages and the like. Exotic beer steins of that era appear to me as a kind of idolizing. The steins often had three-dimensional character images. Could it be, being blind, spirits could feel the image and know it would someday lead to the mouth of some unsuspecting human? Actually, I know this is very close to what is going on.

I prayed to God to curse those involved in all kinds of drug trafficking, including tobacco and alcohol, by the name of Jesus Christ. He will not respond unless many others ask it of Him also. He wants to have the credit; otherwise, He just does things and no one appreciates them.

TOBACCO: Cigarettes have a demon spirit in the package, probably inserted by the people that make them at the factory. Tapping the package and opening it and removing the first few cigarettes and throwing away the package, usually sends out the waiting, anticipating spirit. Microwaves of a microwave oven also eject them. Microwaving your cigarettes five to ten seconds ejects them. Pornography and coffee are the same. Being a smoker and extremely sensitive to spirit activity, I can testify to this discovery. If you are extremely sensitive, lighting the first cigarette of a package usually about a third of the way down, the spirit is driven out and into your mouth.

These spirits are extremely willing and want to accomplish their job, coming to tears of emotions if they are unable to get the message through, due to our inequity differences. I wondered why I heard their cry of tears and not the message. Evil spirits had stolen or corrupted the message, from such a simple thing as smoking tobacco.

I grieved the Holy Spirit as I could hear crying in the background, especially when I started smoking again. The Holy Spirit hated it, and I heard Him groaning in the background. There is a great price to pay. I started smoking to try to get out of this overload situation.

Christians have been rebuilt and are the temple of God. His Spirit resides within you and walks beside you. So if you sin like smoking cigarettes, you will become ill because of not being accustomed to it. Temporarily the Spirit will leave until you ask for forgiveness. He becomes over-exposed, much as you were when you smoked your first cigarette.

Starting smoking again caused extreme tension with one holy angel, and we had problems. He wouldn't even let me watch television, for he had something else for me to do.

When I picked up my smoking pipe, something often notified me that a fallen spirit had located it. My tobacco and pipes were often zapped momentarily in the microwave oven. Spirits were always present in the store-bought tobacco.

I smoked marijuana in the 1970s but did not do hard drugs or psychedelic drugs, except I tried mescaline one time, from which to my knowledge I suffered no ill effects.

MENTAL: Those poor people in mental institutions, tormented by demons, don't realize they can be delivered. I feel sorry about people in mental institutions. Demons possess many, but psychiatry denies that a spiritual problem could be the cause. I'm not saying that there are no physical or medical conditions, but that most of psychiatry totally denies that a spiritual problem could be the cause. If the institutionalized could first turn from their sins, drop all their sins, then a man of God could call on God for them and get them healed. God does not seem to move without His Son's getting the credit.

LOTTERY: Prophetic messages from my life include the lottery (God's Spirit gave me numbers and still does, and I have to be sin-free for six or seven days).

Spirits can set up future events for us, but you have to be in sync (no sin) with them. They have been trying to get me to be perfect long enough to win the Oregon lottery, so that we can get past this huge, financial drain. That's only a couple of days, and I have been unable to comply. The strain from attempting this seems to have a connection to inertial physics. When attempting to comply (turn from sin), at times I feel what we might describe as a stress-force. I feel as if I am pulling on something. Then it suddenly stops; they probably remove the stress. I know they can do this, because I have tested it very thoroughly hundreds of times.

I have a tremendous amount of good and bad spirits hanging around, and I hate to admit it. I am supposed to slow down the world somehow and win the lottery. A creation spirit somehow will enable me to do that. I saw proof of this, yet the timing is very difficult for the spirits, and I have to be perfect for them to enable me to win the lottery. They tried to save this work I did, and I backslid and got involved in some sin, and now I'm not sure what I am dealing with. I can't sleep well at night, because of all these gravity waves and demons and a tremendous amount of stress.

A spirit has told me that this will happen about 2045. Yet since I cannot get all six lottery numbers from time-dilated spirits, this information is probably not reliable. Quite a few times I was able to receive one lottery number. Of this number I was quite certain, by hearing or feeling a pure, baby-like voice or presence of absolutely pure innocence. I am certain this is how the ancient prophets received information to write some of the scriptures in the Bible. Others may just have been inspired. This purity was quite frustrating, however, as the other lottery numbers came in from lying spirits.

I tested this following with an attempt to acquire lottery numbers. I was to wait one half-hour before the event. Angelic beings would pass by as they sped back up to the velocity of the world. However due to sin, only one or two numbers could I acquire; the rest were either lost or not given. The devil would

lie, corrupting the numbers by many different methods. We attempted to circumvent them many times. They knew my heart was right and did not give up trying yet.

I heard the angel pass by me as it shouted out the number fourteen, stretching the word *fourteen* out like *four-tee-eeen*. Fourteen, a lottery number, was correct and I played it.

**SINS:** Sin separates us from God (Ezekiel 23:18). My sins strained the Holy Spirit really badly. I faltered and sinned and lost the good connections with God. I prayed for guidance to get back.

I found it really hard to turn away from sin. It makes you angry when you can't, because you know the blessings are on that side. Some people think that being a macho man is how much alcohol you can hold, and the like. I find that the opposite is true. Trying not to sin is much more difficult and macho. This is being a man.

God does something when we turn from sin, some type of correcting. When you turn from sin, God is able to reset the quantum-jump barriers, solidifying you in an upper quantum-level. Turning from these bad habits, we feel as if God leaves us and the devil begins tempting even more. These are all electromagnetic, wave-based, chemistry-like principles where we jump to a new level. Where a great evil force once was, a great good force can fill in the void. The reverse is also in effect. So if we fall from grace, a void exists which the evil can fill in.

There are designated times that make it easier to turn from your particular sin. At that time right before the moment of committing a sin, the Holy Spirit can deliver you. Many times deliverance comes just moments before you are ready to commit the sin. You have to watch for this moment and not let it pass you by. You should realize (believe) that He will deliver you, and you should have some faith (be in the right frame of mind), else the holy Deliverer cannot help. Otherwise, turning without His help will be very difficult.

Basically, turning from sins is breaking old, bad habits. The Holy Spirit of God will assist you. Turning from sins allows you to form better habits with the aid of His Spirit. Although stressful, expect some good results, depending on how far you get away from sins.

When one's sin is great (like using heavily addicting drugs), great relief will come with forgiveness. People that were strongly addicted and delivered, many times appreciate their deliverance the most.

A person with evil speech, who seduces in one form or another, even with dirty jokes or seducing music, producing ecstasy, or who hears directly from a demon spirit, cannot be properly satisfied normally afterward; he is spoiled. Much like with a potent drug-addiction, he is hooked. Such physical alterations of one's electromagnetic waves ruin the spiritual soul that still exists after a person dies. That person is deformed and if he dies that way, he will end up in hell. Only Christ can rebuild one. We are not unlearned of the wiles of the devil (2 Corinthians 2:11).

ABORTION: Abortion is nothing more than the old sacrifices mentioned in the Bible. See Leviticus 20:2-5; 2 Chronicles 28:23; Jeremiah 32:35.

## 15. Demons, Evil or Familiar Spirits, Fallen Angels

RELEVANT, ADDITIONAL AUTOBIOGRAPHY: This treatise started out as an autobiography, but due to its importance and the life-consuming part, it evolved into being intertwined with much scripture from the Bible. I felt this was okay as it became a large part of my later life, as I continued with the struggle between the good and evil forces.

If you feel you're having problems reading this with all the scripture or you have a spirit of fear, then you have a demon influencing you. He will be using a slow method of negative reinforcement to form you. Sometimes it is easier to hide from the truth, especially when sin is involved as an alternative. People would rather believe a lie than the truth.

What happened to me in October of 1981 was absolutely terrible. I made an audio tape of this experience. Below is the first part, an excerpt from my original tape of the demon-attack experience.

This possession I personally experienced through an attack by demons in 1982, after making a witchcraft, love-potion perfume I saw on television. A white witch, as she identified herself, appeared on a kids' show and showed the audience her formula. (There actually is no such thing as a white witch, as all of this is from the devil. There are no white witches, only evil ones, regardless of what they think or say. Read 1 Samuel 28.) Someone warned me that there is a dichotomy between black and white, good and evil, just before I slipped into sin.

(Ancient Egyptians worshiped many gods, idols, and God forbids such. Their culture had an attraction to the lotus plant and its oil. This is one of the main ingredients in the love potion I made, that got me possessed. The Egyptians also used fly feces as an ointment. Why? Led by the devil, it caused sickness and an opening in a person's armor of light. The devil hates man. I'm not sure exactly why his hatred is so intense. Check John 15:18,19.)

Several months later I began having some serious problems. One night I began hearing voices, at first very faintly. Not knowing exactly what it was, I was convinced it was some type of ESP. I was partially possessed by demons.

The devil uses something very similar to the "Schick Treatment." If he is not thinking or doing what the demons want, one can have a very small, barely perceptible feeling. Many of these feelings will result in the dislike of anything, even Christ. Negative reinforcement rewards bad thinking.

That was my beginning to search for God's deliverance. Attending many churches, I began to find some that could deliver me from this affliction. Most churches just did not have the power nor the understanding of how to handle this situation. I pointed out scriptures from the Bible, and these people had no answer.

Later at the Foursquare church, I received a miracle, and the demons disappeared completely. Unfortunately some time later, I sinned again, and they again attacked. Since that time I have received the Holy Ghost and have been receiving spiritual help from Him. I have been praying for another miracle every night and have yet to receive one. People have prayed for me personally many times now. The demons are out of my mind and the doors are closed, but they still wake me up at night and irritate me during the day, so I must assume they are still in my body or in its field.

Once, the demon spirits got into my knuckles, causing pain and slight swelling. This spiritual activity may be one reason some people have arthritis (not the only reason). By shouting "By the name of Jesus Christ, I bind the devil in my knuckles" many times, while tapping them, the evil spirits were removed. I have many times, almost daily, used this formula in various situations.

Say to yourself out loud so that the devil can hear you, "I bind the devil and the strong man by Jesus Christ's name." We must first bind the strong man as Christ said (Matthew 12:29). There is a saying, "When in doubt, cast it out." All this appears to be nonsense, but I assure you it is the truth from the holy Scriptures themselves. Don't fall back into sin, as I have done.

I had great difficulty with sin-righteousness wave-oscillations. I hope you will understand what this is, by further reading this text. I believe they are the same as what Christ experienced when He bounced into hell.

I grieved the Holy Spirit at times. I heard Him crying at times in the distance and when I awoke from sleep. The work got so long and difficult that I ran for cover into some sins. Only then an oscillation took place, and more work poured in from Him. Avoiding detrimental, heterodyned, gravity waves took its toll as well. Somehow I was able to continue, but I was somewhat debilitated. A bunch of stuff came from the devil, masquerading as an angel of light, and I had a difficult time sifting it out. The worst of it was that the devil would imitate and snivel and grieve, straining me until I could take no more. Evil spirits play both sides at the same time, confusing whenever possible, even to the point of giving correct wisdom, so as to enable your trust. The Holy Spirit put up with a lot from me, and I did a lot of His work. God forgives. Hearing God boom like thunder overhead, I still made mistakes.

God had me up so high (some kind of charge-up level), I could feel the spirits coming out of a laundry cleaners when I drove by. They would try to cling to me. I learned to bring a paper to sit on and always to wash my clothes, after visiting an evil place. I always washed the bottom of my shoes, so that the spirits could not track back, as well as brushing them off my pant legs.

When I was driving in a city block with sized figure-eights, the spirits became very much confused with tracking me back home. I always ended the loop with a connection to the center of the eight, then backed up and exited from a different direction.

Other tactics were not enough, however, and I was directed into driving into huge figure-eights to confuse the trackers. The Holy Spirit then was able to confuse the tracker further, aiming it back to its place of origin. I however had the gift of “discernment of spirits.” To any normal person without this gift, all this could seem just ridiculous, because it is all invisible and nearly undetectable. If our level is high enough, we are able to step on these spirits, but they will cling to your shoes and clothing until you or the Spirit of God knock them off, although the Spirit gets tired of fixing every goof you make.

The Books of Deuteronomy and Hebrews say God will never leave or forsake you. It must have been this gravity research that affected me. It seemed as if I had something extra happening. We must be hard to find because spirits are hard to get rid of, once you have them.

After the demons attacked me (I have an audio tape of this attack, which is available) and I found God, I attempted to turn from my sin of smoking cigarettes. I failed, so I prayed several times to be struck down by lightning. Within the next week or so, a lightning storm came to the Portland area. Having a hobby of photography, I had always wanted to get a photo of a lightning strike. The storm appeared to be coming my way, so I jumped into my car to get a picture. Remembering my prayer, my heart skipped a couple of beats.

Upon driving down 122nd Avenue just a few short blocks from my apartment, I pulled over at a small public library. The storm was coming right up my way and was very close, so I prepared the camera and opened the window of the car. Just then I heard a voice saying, “Go across the street.” My heart jumped and I was startled greatly. I could not get the courage to drive across the street in the driving rain. Moments later a huge boom and flash occurred in the parking lot across the street, right where I was directed to go. All the lights on 122nd Ave. went out; it was pitch-black darkness. As the storm passed directly overhead, I then drove across the street to look for damage. Then I heard another voice saying, “Go into the Plush Pippins restaurant.” So I drove over to the entrance, but did not enter the restaurant. Wow! I thought what could be in the restaurant? Thoughts of my brother entered my mind and I became agitated. Later I found out that my older brother and his wife were having dinner there at that very same time. Later I would find out that this was the Spirit of God, giving me a message of a future event.

I took notes on theory from the Holy Spirit, night after night while in bed. Also, demons kept me up and I lost a lot of sleep and had problems getting to work. I became weak at the knees which often buckled from the stress and had problems even getting up the stairs. I strained greatly just to climb up my stairs to bed. I had no idea this thing was going to use so much of my time every day. I cried and said, “Get off my back,” as I could not take any more, in my attempt to continue. I was sick of it and wanted to give up. So I picked up old sins to keep the demons away. I said, “I don't want any more of this crud,” yet could not get any helpers. The Holy Spirit had me sleep inside a water Faraday-cage to avoid aging, synodic-gravity waves. (See hypothesis.)

TO DO: God would ask me to do something in a really polite and nice way. Then the devil would repeat the request, masquerading his voice over and over again, trying to pile-drive it. Another tactic was that God would give me something or vice versa, then the other side changed it. This is reversal and role-playing. Jerking back and forth, the devil is role-playing as God. I see this action all the time in the news and especially in political arenas. Evil is using various positional, logical arguments. All this is in the Bible in various forms.

Because of some minor sins at that time, the devil gave me a bunch of stuff to do also, and I had to sift out what was from God and what was not. Often I could do these things only by building and experimenting. Often the Holy Spirit would just let me continue building things, even though He knew they would not work. It had something to do with how your mind interfaces with the æther (Elohim field, the Creator field).

My younger brother Ben died in the battle between good and evil. He struggled with demons that tried to place evil thoughts into his mind. He was always in my prayers. Just before he committed suicide, the Holy Spirit tried to guide me to locate him for hands-on, healing prayers. I did not find him in time. I dug around his grave-stone and placed there the rusty beach-sand from the gravitational phenomena. I had hopes that the phenomena would open the eyes of the blind to the truth of the gospel. (See Hebrews 9:27.) I pray for all those who would die in this battle.

Several days later the demons totally attacked me after I committed sexual sins. The demons, many of them, entered my body and mind. They were able to enter my body and mind for a week afterwards. They had much control over my body. Whenever I did something against their desires, they punished me. Several times I bled while urinating while being punished. I was hit in the head and punished in ways I could not describe. They knew my every thought; they were part of me; I was possessed. At one time I was so much possessed, I felt heavy and sick and could not sleep for days. We constantly argued and I gave little ground to them. I prayed for hours, but received no perceptible help. They constantly teased and tormented me for days. They constantly tried to brainwash me and they literally brainwashed me one night. It felt like dozens of scrub brushes scrubbing my brains, as one would scrub her dishes.

One night I woke up to the word of Satan repeated over and over again hundreds of times. I counteracted, repeating the name "Jesus Christ." After forty-five minutes of this, I recorded "Jesus Christ" on a tape recorder and allowed it to repeat all night long. I purchased a set of tapes of the New Testament. When I played these at night while in bed, I could hear a spirit intermittently reciting, along with certain key words.

Years ago before my encounter with the devil, I had made dozens of exact, scale-size pyramids and placed them under my bed. I had read about their strange and unusual powers. When I got born again, I threw them away. During my battle with the devil (it must have been about 1983) while lying in bed, very tired from the battle, I felt something come down from the sky above. I felt it like a field, because of the phenomena. I knew somehow it was a heavy stream of particles

like cosmic rays, like a burst of cosmic rays. I knew I should have moved from the area, but was too tired to get up. It lasted only about one minute.

Less than ten minutes later, an army helicopter appeared behind my apartment in the back yard of a house. It hovered on the ground for a while and then left. I know now that the men were investigating an event that must have appeared on the Portland airport's radar or nearby Air Force radar, and went to detect it. I should have gone outside and talked to them, but was not dressed and did not expect them to stay so long.

I don't know what the thing was exactly, but it went right through me. I tried to determine what had caused it to hit me directly where I had spent so much time, in bed. It seems logical that something attracted the demons. I was partially possessed by demons, once had those pyramids below my bed, and had a huge magnet in my bedroom. Which one could have caused this incident?

One might verify this event by checking the radar records. I don't know what the exact date was. I lived in apartment 33 in the Misty Firs apartments on 122nd and Market Streets, 1538 S.E. 122nd Street, between the fire station and the Dunkin Donut shop which I visited often. My apartment was in the back on the top floor. It was through the breezeway to the left and then up the flight of stairs, just at the top of the stairs. I lived there eight to ten years.

The devil's desire to remain anonymous was probably based upon some question as to whether or not I would be able to turn completely from all my sins. The devil might corrupt much of the work. I was unable to enter into the most holy of holies, the inner temple of God. This is a well-documented biblical principle, a place of communion and prayer. I got part way in, but could not take the stress because of sin.

During the time when I was fighting for my life and had prayed all night long, while in bed, something notified me that Satan was coming to find out what all the commotion was. I heard "Who goes there?" sounding like a fog horn. He came down from above over me. What I presumed to be a good spirit gave me a "you may" kind of feeling or instruction. I responded. I turned suddenly and struck him as fast and hard as I could with my back hand (I was lying on my side). I heard a loud boom just above my apartment. I remember thinking, Was this noise a coincidence in timing of a sonic boom or just a loud noise directly overhead but outside? I know now that it was probably his passing through the sound barrier. The Holy Ghost must have been there, pushing him away as well. I don't remember if I knew how to plead the blood of Christ back then.

God, I believe, left a devil-spirit within me and around me to keep me in alignment. This happened to biblical characters, namely King Saul.

**PLOYS OF THE DEVIL:** With our not realizing it, he plays with our imaginations. One was being cut by a knife, and the feeling of being guilty even after I was saved by the blood of Jesus

and forgiven. If you have ever had these imaginations of being cut by a knife or razor blade, then you will know where they are coming from. Razor blades were his favorite with me. I'm sure the spirits are trying to prepare me for an encounter with an unknowingly possessed person that has been given the desire to cut someone, out of hatred.

This reminds me of a car I owned and worked on occasionally. I kept the windows clean, vacuumed the floor, fixed the minor engine problems, changed the oil, etc. In return it carried me everywhere. I became attached to that car and loved it in that sort of way.

Spirits have a similar relationship but without wills, since they have not been physical. A will is developed through interaction with the physical. (If they are new spirits, they have no will.) The very same thing happens today. People can be unknowingly led totally by the Holy Spirit. I experienced this when I was a child, but had no knowledge of why I changed from being very popular and liked by all and always saying and doing the right things. Then sin crept in to my members and unknowingly I let the devil take command. The devil or spirits in general are like microbes or germs; they're undetectable to us. We can't feel or see them. They for the most part operate in our sub-conscious level.

**WINGS:** The devil tried to alter me in many ways. One time spirits told me they were going to do something that would give me invisible wings. I broke my spiritual wing. I rubbed it on the refrigerator door, hoping that whatever the spirits had done would disappear. Unknowingly, this was my God-given wing that they somehow exposed or opened. I felt something on my back and assumed they had attached something to me. So I rubbed my back against the refrigerator door slightly to knock it off, not knowing at the time what it actually was. Some years later in a dream, I was given the meaning of the event. I had broken off one of the spiritual wings of my soul. I heard tears in the background, as I saw my wing floating by on a sudden flushing of water.

Why would God as written in the Old Testament, tell His people to destroy all the people and even the animals in a particular area? Possibly evil infected them, and even chromosomal damage could have been the result. That damage alters both humans and animals that become possessed. (Remember the man from whom Christ cast out a legion, and they entered the swine.) Jesus was a carpenter (builder). The opposite also exists (the destroyer), corrupting societies and nations. We are to be free, but there are consequences to over-indulgence. If a spirit has altered your chromosomes for his purpose and you die in that state, your spirit is frozen in that state and you will be as a spirit and bound in chains to keep you out of the way. I know; I have a broken wing.

Contrariwise, the devil was always trying to mislead me, changing words/visions, etc. One example is when the Holy Spirit came to give me a message. The devil intercepted it and gave me the name *Houdini*. I wondered, What? and knew it was from the devil. What I did not

realize at the time was that the real message from God was *Bedini*. The evil spirits twisted everything they could.

We all have done things we wish we had not done. I tried to report or log correctly what happened in my life. I ran into great difficulty from all sorts of obstacles like lying spirits and communication with higher sources.

I'm sorry all the paragraphs and sentences are not in perfect order. This thing got too big and I wanted to live my own life. The family business was failing, and I stepped up to try to repair it. I had not expected any financial blessing to complete all this work. I could not receive it, even though it was placed right in front of my face.

I sense spirits around me now as I write these words. We have experienced great difficulty in acquiring good, sound, uncorrupted transmissions. The last physics information we worked on was the double slit (light interference) and its mysterious effects. I believe the basics have been resolved now, as I have tried to sift out the good from the corrupted information. However, absolute dictation through me was impossible, even after knocking spirits off things like coffee and tobacco, with a short burst of high-intensity microwaves (of a microwave oven). I realize this seems ridiculous, but I have become supersensitive to spirits and know this is how it happens. Normally the Holy Spirit would use the body armor's field to do such things, including the shield of faith and the breastplate of righteousness.

I know spirits have been attempting to time-dilate with me for quite some time. (Later, I was chosen and worked with some time-dilated, prophetic spirits.) This is weird, yet I feel strongly it is fact, and I see the Bible supports it. Peter was given this revelation two thousand years ago, and he knew nothing about time-dilation. It's too bad I can't take dictation (so to speak) from God, as Peter did. I had to sift through all the garbage laid in place by the devil to trip us up.

These spirits are extremely willing and want to accomplish their job, coming to tears of emotions if they are unable to get the message through, due to our inequity differences. I wondered why I heard their cry of tears and not the message. Evil spirits had stolen or corrupted the message, from such a simple thing as smoking tobacco.

Evil spirits will even follow you home. A nude tavern would have many congregating evil spirits on the floor and chairs. Customers would have brought in these and they would reside there. Upon your leaving the premises, much like a blood hound, specialized spirits can track you back to your home. I developed tactics to overtake them. Unfortunately I experimented and found that washing the sole of your shoes afterwards and not sitting down in the tavern was very helpful, but not always. I planned visits around rainy nights when the rain would wash away my tracks.

Because this experience is so much off the wall, I will probably run away to escape the embarrassment. A lot I did not even disclose; I have left out a lot.

(This is the end of the additional autobiography.)

ENERGY-LEVELS: For a congregation or an area (small city) to have more people that are saved, sin-free, and full of faith, the higher will be the local energy-levels for miraculous works. There revival can take place. People knowingly or unknowingly demon-possessed will interfere with this physical phenomenon. Also where evil once strongly existed, the works of a holy God can fill this void. I base this statement on physical quantum-laws, and it is also similar to the north and south poles on magnets and/or quantum chemistry. Areas that have a lack of faith or that do not think with faith, produce electromagnetic waves that enter the surrounding space. These areas will be absent of miraculous works. (See the last verse of Matthew 13 where Jesus could not heal for lack of faith in a synagogue.) Some people, however, just receive the gift of miraculous healing or wisdom, prophecy, photographic memories, etc., from birth.

Conscious and sub-conscious communication similar to ESP occurs to all those in accord as one spiritual body. The Holy Spirit and EMF (electromagnetic field) transmit these communications. (The devil also uses this. People that the devil uses can interfere with this power.) This force enables those that are on the same quantum level (of their flesh and brain-wave, EMF emissions). The more people in the congregation on God's quantum level, the more power (the anointing) is enabled for healing, transmissions, and the works of the spiritual gifts. This is the same type of energy/power that occurs when batteries (our bodies) are connected in series/parallel. The more voltage and power level are increased. God uses this energy-connection to perform great miracles, such as parting the Red Sea.

The Israelites wandered in the desert forty years as God tried to diminish their sin and increase their total electromagnetic energy used to enable miracles. The more followers, the greater is the power, and conversely so.

The holy Scriptures have many examples of demon possession. Christ delivered Mary Magdalene of several demons, as He did the demoniac of a thousand demons, which when cast out, went into a herd of swine and drove them into the sea. Jesus Christ cast out thousands of demons.

The audio portion of the signal on television, probably even telephone, can carry these subliminal messages. (Subliminal cassette tapes are similar.) Satan designed nightmares of all types and forms and all types and forms of subliminal messages in the daytime, to influence us with physiology.

SEEN VS. UNSEEN: There is an oscillation that occurs when one turns from a sin that has been affecting his life. This is much like a wave oscillation, first up, then down, and then repeating. The body's field, the armor of light as Ephesians 6:11, 13 describes, is probably similar to the aura spiritualists describe. Every thought forms a pathway of electromagnetic waves. Trillions and trillions of these waves form our aura or electromagnetic field and connect

us to our environment. To some degree spirits can rearrange this field and the way we think. This is possibly how Christ through His Father enabled His healings and miraculous works.

Our concepts of just the physical world alone are not correct. There is much more in the unseen realm that we do not account for. This is the realm of God and spirits, the world we enter when we die.

SLEEP: If you try to do anything for the kingdom of God, the devil will stand in your way. He attempted to kill me many times while I was sleeping in bed. He has some type of surge that strikes into your side. I was penetrated one time during a time of fasting. I always sleep on a half-inch stack of newspapers laid in a paper sack. Placed under my side, it provides shielding against this type of attack.

I became weak from a fast. This weakness activates the Holy Spirit because you must attend to your weakness. Also digestion of food can be hard to handle because of the merging of EM waves. After that attack, the Holy Spirit directed me to sleep on a shield that covered my chest and stomach-side area. The Spirit of God does not seem to activate until times of extreme trouble. I've heard occasionally that He is an ever present help in times of trouble. (See Psalms 46:1, 9:9.)

Eating food at bed-time can cause bad dreams if the devil is present. The Spirit of God has difficulty when you are digesting food; it's discomfoting to Him. Some particular foods like fried ones and candy may be objectionable by preference to the Holy Spirit.

I was able to receive much wisdom when the Holy Spirit or an angel, I'm not sure which, guided me. However it came in so often especially at night while I slept, that I was unable to handle it and turned to sin to stop it. Maybe it was flowing in through a time-corridor and it could not be stopped. The stress was too great, due to a wave-length mis-match between my body and the Spirit, or maybe the devil's attempt to stop it, due to a minor sin at the time. I got upset and was missing work, due to the amount of wisdom coming in. The devil was always there to screw things up.

Before I discovered the spiritual realm, I never could understand people completely. There was a missing factor. Some people because of their sins are devils, and they have no idea they are. It's usually a slow, stealthy process by demons. I've been told, you can boil a frog alive without his knowing it by slowly raising the temperature, and he will not jump out. Compulsive lying and stealing are examples of sins that unknowingly have devils. Sin goes from simple things to very evil things. This is the devil hidden within, influencing unknowingly. ". . . They . . . are the synagogue of Satan" (Revelation 2:9). I swear this is the truth. If not, let this entire gravity theory be a lie and the last fifteen to twenty years of my life. I've studied all this very closely. I've studied the spiritual realm closely, mostly from the Christian viewpoint which is based upon the truth, and I took many notes at night.

We are the holy temple of God, a mansion so to speak, very large to the size of a usual spirit. I was a landing field at one time. The Spirit would zip in while I lay motionless in bed and would jolt me. Other times I could barely perceive His landing so softly. I always felt unable to accomplish what He wanted, due to some sins which would consume some of my energy which evil spirits wanted to work with. I'm not sure if the Holy Spirit is proud of my work. He wanted better communication which comes from walking straightly with the Lord.

Demon spirits are able to detect the carbon dioxide in your breath. Burning candles impairs them. Burning a candle next to the bridge of your nose (not burning it) or close to your ear passages, one may feel the breaking of strands which the devil uses for communication and control. The strands can cause headaches. (The Christian song speaks of "breaking the chains which bind you" and their "dropping powerless behind you, when you praise Him." Brown Banister and Mike Hudson wrote the song "Praise the Lord." Russ Taff sang it with "The Imperials." Dove Awards gave it "song of the year" in 1981.) When I slept, I placed a small fan next to my face to blow my breath away. The Spirit of God gave me all these defensive ideas. You must first bind the strong man and then cast out the devil.

Reading the Bible in the presence of the healing, Holy Spirit may make some able to feel the disconnecting of electromagnetic strands (like chains or strings) being pulled off the back of their head and neck. One can feel this if he allows the healing to take place. These strands enable demon spirits to communicate and to have usually minor control. The strands can cause headaches and maybe migraines. The devil is able to form these invisible strands on individuals who have a weak helmet (cf. the helmet of salvation). Burning a candle or a light bulb near this area also breaks the strands. The halo, part of the armor of God, is a culmination of pure, bodily, electromagnetic waves emitted from godly people. It forms a torridal shape. Use of even light drugs like tea, coffee, alcohol, and cigarettes, weakens one's armor. The slight weakening allows the devil to work, albeit only by the amount of abuse of these substances. There are always two: a devil-contrived and a chemically produced problem. It's easier for the devil to hide his work within an actual problem. He is stealthy.

The tongue is like a great rudder on a ship (James 3:4,5). How we use it controls our life. Any movement, thoughts, or speech our body makes emits electromagnetic waves. When coupled with good or evil spirits, these waves will arrange your body field via thoughts to their liking (which is usually yours also). Unfortunately if you die in this state, it is permanent. (Remember that Moses' snake swallowed up the sorcerers' snakes. See Exodus 7:7-14.)

If there are actually ghosts and they wanted to interact with the physical world, how do you think they would do it? We are the home (temple) of the Holy Ghost (see 2 Corinthians 6:16). Evil spirits also can invade us, desiring to control the physical world.

I have had thousands of visions the demons have mostly brought on, and some from the Holy Ghost. The demonic visions were in vivid color and were exactly as though I was there. I had

never dreamed in color before. The Holy Ghost asked me to write down my visions. So I began, although I missed the first part. The audio cassette tape has most of them recorded.

It's amazing how the devil can stitch things totally backwards and convince you that it's correct. If you're having problems like this, then the source is the devil. He is in your mind or body field and is pulling strings. God's Holy Spirit does not lie.

Having the gift of discernment, I was able to identify people with or guided by demon spirits, and conversely people with holy attributes. One must have the gift of the Holy Spirit to understand the words of the Bible.

The Holy Spirit can further reveal the lies or evil emanations, helping you further and guiding you from the pit-falls. In these last days things are fooling even the elect.

The devil blinds the minds of and fools even the elect. He interferes with personal relationships, causing conflicts and misunderstandings. Living a sin-less life can keep him away and allow the Holy Spirit to correct. Everything God does, the devil is right there to counter, and the reverse is true as well.

Demon spirits have eyes but they cannot see visual light-frequencies. They travel along the ground and can easily fall into street drains and end up in the sewer. (When we die, we become a spirit also.) If he is nearby or within, the devil will try to trick you into following him the wrong way. He will put on an act of love, convincing you that you are to go this way to get to heaven.

**INERTIAL PROPERTIES OF TURNING FROM SIN:** The resistance (force) and stress you feel are moving something, like winding up a spring, and then letting it fly. These are atoms or the Elohim æther field. If God through you stores up this stressful force, then creation events can and will occur, molding your atoms and body chemistry for years to come. You may not be aware of some of these creation events occurring nearby or within you. Get on the right timeline. Time has little or no meaning to these mass-less, high-velocity spirits.

A weightless class of good spirits that can time-dilate by approaching light-velocities (actually by slowing down; see how to understand this concept elsewhere), foresaw all this. These special spirits transferred revelation knowledge to John who wrote the Book of Revelation. These spirits are very difficult to work with, as a great stress and battle accompanies this knowledge. All this above has happened before, on a smaller scale. If he looks back into history and pieces the puzzle back into a frame, one will see the picture forming. (See works done by Jack and John MacArthur and Grant R. Jeffrey and *The Late Great Planet Earth* by Hal Lindsey.)

**DOPPLER:** Weightless, time-dilated spirits see future events. I felt its loving presence as Doppler shifted by. Doppler shifted in an increasing, frequency direction, meaning it had sped up in velocity to reach my velocity. So it had passed from a slower point in time to mine, which was an increased velocity point.

I found they can relay only one character at a time. By the time Doppler shifted and flew by, only about one second duration had passed. Its presence changes the area and you (field), so you initially have to be at a high field-level to receive continuously from a stream of spirits. All you have to do is try, all you have to do is try, I heard, and I got sick of hearing it.

MONETARY: I followed this creature that makes a beeping noise. I'm sure this was due to a sizeable offering I'd made six months earlier to TBN.

Here is that spirit, pushing me to write again. They always seem to be upset with me. They placed things in front of me, and I was unable to receive them, like monetary things that would have helped me accomplish all this work. I struggled greatly. I cried briefly and heard them cry off in the distance. Historical records don't give me anything more; I cannot keep up. They woke me up at night and messed up my sleeping habits. They would not let me sleep until I wrote things down.

It's not fair; I have a life too. Yet they're eternal. They are a golem. I don't want to mess with spirits anymore; they're too hard on me. They go before me and get into people who don't even realize it. Yet I can identify their attributes after this many years, i.e., the before and after attributes. They always tell me which way to go, and I get tired of it. I did not expect all the complications, especially the monetary ones.

MASS: I've seen evidence of time-dilation through the holy, temporal spirits. Moments before something would occur, something alerted me. This continued for some time and unsettled me. The stress I encountered was overwhelming, due to a small amount of sin, and I was unable to continue. Biblical prophecy is the result of light-speed travel by spirit, then bringing the information back to our time. It is a kind of time-travel into future events. Time-travel is a physical reality, but not for anything with mass.

Angels and demons are spirits. You will be a spirit when you die. If your waves have been altered much, then you will fall into a pit. You will be pulled down, much as gravity pulls upon objects with mass. If you have had creative forces (spirits) working through you, then your waves have been altered to match physical mass wave-lengths (see the theory on chemistry). Gravity waves pull physical mass. They are thieves just like any ordinary people-thief, except they are spirit thieves.

Just like people that are thieves, murderers, etc., some spirits don't care what it takes to get what they want. These fallen angels steal another's wife, murder, and change our internal makeup, even to our spiritual destruction, to enable their greed or lusts. It is to their advantage to remain hidden and undetected until it's often too late. God has provided a means to rebuild these inflicted damages by our being born again.

Once they get your wave-length, they are able to communicate on it, pass feelings and emotions, create problems with friends and family and spouses, and make you stumble. They can affect the

whole community. They can take over like thinking, and the results can be disastrous. They are demon babies.

Only by turning away from your sins will God help. We have to take the first steps to receive help. If you have the Spirit of God within, you can bind them up by taking authority over the principalities and powers that stand against us. Audibly plead the blood of Jesus Christ and bind the strong man (a spirit). Also plead the stripes of Jesus Christ (Isaiah 53:5-12). “. . . With his stripes we are healed” and delivered. Have on the full armor of God against the darts of the evil one (Ephesians 6:11, 13-17).

Any sin on my part (cf. Joshua 7:13) allowed the devil to masquerade as an angel of light, thus confusing any wisdom I received. Demons are quite stealthy and easily appear as they once were when first created. I was unable to take direct dictation from the good angels and spirits for most of this work.

If you are a Christian, then the Holy Spirit continually has to pull these spirits off you. If you smoke for many years and your armor is much damaged, an angel of God may leave you, looking for a better residence. Yet we know, “I will never leave you, nor forsake you” (Hebrews 13:5).

GOVERNMENT: You have to be careful with spirits, because they have different powers and can cause massive corruption in governments or nations. They intentionally choose people in positions of power, to enable their corruption or good, depending on their intent.

Nations can succumb or be ruined when this demon-distribution system reaches the elected officials. Nations can be destroyed and world wars started, as territories are formed.

The higher up you are, the more likely you will be targeted. The more sin there is, the more problems. This fact even can affect your dog and cat. In some old battles, God told the Israelites to kill everything, even the animals, although the people usually took the spoils. Could this be the reason? The devil desires the higher-up entity first. Even the children, the future ones to be, have something to offer.

If business owners, politicians, and leaders of states and countries are not righteous, then the devil will guide them into making mistakes concerning the rest of us. These people are probably healed and given wisdom to keep them in position, as long as they are doing the devil’s will. We as Christians are the same way; only the means to the end is different.

What are we then going to do about those individuals who do not turn fully, and are locked in perverse ways, their last state being worse than their first? (Cf. Matthew 12:45.) They are affecting our world and the local governments. The spirits within these individuals keep them blinded. They do not seem to have the capability of prophetic time-travel and may not see future events, thus leading them (government officials, teachers, etc.,) into decisions which will affect

us adversely in the future. Even if this is not the case, they seem to have only their self-interests at heart.

**THEORY:** The Holy Spirit gave me the theory during my recovery. I must say there were quite a lot of demonic problems still, and I had to sift out what was true and what was not. I expect I have made some mistakes. On the whole, I believe most of it is true.

In the previous versions of the synodic theory, I simply stated that a very old person who did not want to reveal his identity, gave it to me. I hoped people would accept these versions, because of the rejection of any Christian viewpoints in the science arena. Now I am going to be a little more bold and say, (by the most part) the Spirit of God gave it to me.

“Use the force, Luke!” I heard. At first I did not know what they were talking about. Then I understood: the gravity force and the fact that the current theory had no force associated with it.

Often people possessed by the devil hate Christians. I guess I will just have to put up with the ridicule, or probably just run off. It is assured that the devil will make a mockery of this theory. Being led by the Spirit can be very difficult. The devil may follow you the entire way. Some people walk in the Spirit without even realizing it.

The theory and this witnessing are going to get me into big trouble. “For they cannot sleep unless they have done wrong; they are robbed of sleep unless they have made someone stumble,” Proverbs 4:16, RSV. “For they sleep not, except they have done mischief; and their sleep is taken away, unless they cause some to fall,” KJV.

**HARRY POTTER:** Most people think the Harry Potter series is just fantasy books and movies. However, things like transmutation (changing from one form to another) also are recorded in the Bible. Moses threw down his staff and it transformed into a snake and swallowed up the magicians’ snakes. Also people saw that Christ walked through walls (John 20:26).

The Harry Potter type of book is indoctrination into witchcraft and the demon-distribution system. This book teaches witchcraft, without using the correct words to enable the spells. It does, however, teach the proper accents and correct inflections of the words. The books are indoctrination. People that read these books will pick up a demon from a mass-distribution system, located with the publisher or distributor. The movie will bombard the audience with good thoughts and feelings from a specialized spectrum of electromagnetic waves of ESP communications. These waves are designed to allow people to believe that everything is just fine and it’s just a good, fun movie and nothing more.

Harry Potter is all lying signs and wonders. Mark 13:22 says, “For false Christs and false prophets shall rise, and shall show signs and wonders, to seduce, if it were possible, even the elect.”

SPIRITS: We are already traveling at the speed of light. Our atoms all spin at light-speeds. Slowing down thus enables time-dilation and prophecy. There are multi-fields (levels), and some good spirits can follow with you to different levels; however, their communication with higher levels seems to be cut as well.

Spirits have access to time-dilation and creation properties. They spoke through me at times.

If we get separated from God and die, our spirit can be lost in a space- and time-dimension. How? The body's field becomes tuned to our spirit field. If you have evil spirits effecting, altering your field to their advantage of accessing the physical world through you, your soul could be lost in the space-time continuum-field forever. Don't get lost in a space-time dimension. Spirits seem to exist in a time-dilated field. It's conceivable that your soul could get lost in this field. The only way to get found again, if at all, is an elemental, cascading event, where all the elements have a quantum leap. That would be a rare act of God. You could be lost in eternity. The near time, seconds to minutes before the present, seems to be the easiest one for the spirits to work in, but this is dependent also on your connections.

I have heard that morticians have shown that a minute amount of body weight-loss occurs at the moment of a person's death. People believe this to be the weight of the spirit (your soul), which leaves the body during death.

High-intensity microwaves, such as found within your microwave oven, will disperse evil spirits. Don't microwave in your house or else they will deposit there. Some people may be able to see them, a light, ghostly like vapor, momentarily escaping out through the oven-door gaps, but only if the concentration is very high. As they spill out of the oven, the demon spirits will fall to the ground and will latch on to your clothing. One can also feel them very slightly and can brush them off immediately. Sounding more like the ghost busters movie (science fiction becomes science fact), vacuuming the floor helps, but throw the bag away immediately. Don't be fooled: you're not going to rid yourself of demons this way. They have thousands of years of experience and can track you and even overtake nations. They walk within many people, who are unknowingly, partially possessed. Passed down through families, controlling their thoughts, they stand against godly principles and people who think they are doing right.

Devil spirits easily influence most people. Take Nazi Germany, for example. The masses followed this evil leader. Women seem to be more perceptible to spiritual influences, whether good or bad. In these last days even the elect (church leaders) are being fooled. The devilish spirits get into your subconscious and into your dreams first. They cannot get past your subconscious unless you allow them, and putting negative stuff in their minds will impede their progress. This is probably how Hitler swayed so many and also how hypnotism works. Anyone working miracles but not using the name of Jesus Christ, will not go far. The devil cannot say that Jesus Christ is Lord.

Spirits are constantly raising people up, living within them. This is a startling thought. They are jumping to and from, transmitting information and ideas, and helping or impeding.

Man, we cannot even tell when God is there or not! The spirits seem to pop in and out of people who are unaware of it. Their mind changes or they interpret conversations incorrectly, and then act upon them, without ever knowing what the real source is. The armor of light is the only way to keep them away.

These spirit forces are extremely hard to perceive. We are all susceptible to these and must guard against them. Some are EM transmissions, much like radio frequencies. The only way to avoid them is through a pure life. They oscillate (from truth to lies).

When you read the Bible, sometimes you are reading it to spirits, spirits that may have passed away without God and yet they want to know God. They read it through you and with you and help teach one another. See Hebrews 9:27.

Just as people are born as babies, spirits can enable us to be re-born, starting our lives renewed.

The bottom line is that we don't live very long (when compared to eternal). Just like people, there are some good and bad spirits. You don't want to get into the hand of the evil ones and not know it. They crave flesh, so abstaining from fleshly desires is a good way to repel them.

Predatory animals go for the throat when making the kill. Similarly it is not too difficult to understand that it is possible that predatory-like spirits exist. God could extinguish your everlasting life in Heaven if the blood of Christ does not cover you.

Why does the devil come to steal, kill, and destroy (John 10:10)? It's in his nature. It's easier to tear down than to build up. Evil spirits are lazy and corrupt. If a section is wanted, then a method to tear down another part may exist, which strengthens the wanted section. This becomes their nature, after hundreds or thousands of years. Thanks be to the rebuilding blood of Christ which flows through our veins, if we allow it. Let's allow Him with His Holy Spirit to adjust our chromosomes and connect our thoughts. Don't be left without Him in the days to come. A new heaven and a new earth are coming.

GENERAL: The following is from spirits "due to sins I cannot be sure who they came from." "Spiral galaxy: Look for a habitual planet in the outer edges." See *Popular Science Magazine*, September '06, page 72, on how to locate a habitual planet. The article is entitled "Finding Earth's Cosmic Twin."

Read the book, *The Earth: Its Wonders and Its Secrets*, especially page 122. The paragraph on electro-language speaks about communication among some fish species that occurs at high frequencies between 50 and 150 Mega Hertz. There is no reason not to believe that spirits can also utilize electromagnetic waves for transmission of feelings or thoughts. These waves could be attached, riding on TV signals, and then TV sets in our homes could amplify them. People can

use evil movies as well, I'm sure. I'm not just guessing on these matters; I was given this wisdom during experiences.

Anything God does, Satan will have a fake for it. It's a battle. If God does something miraculous, then the devil counters it. The only way to isolate oneself from this struggle is to walk cleanly with God. It's another oscillation. If you turn from sin, then Satan will tempt you. Take every thought captive to the glory of God. (Read 2 Corinthians 10:5.)

Take authority in Jesus Christ's name over bad habits like swearing and disrespecting authority figures. For a time your action will push these spirits back down inside them.

Slowing down beyond the present light-speed of our world (our realm), enables a look at future events. A high-velocity spirit can bring information to us of future events. Interfacing such spirits can be extremely stressful, and it requires one to remain completely motionless and free from any sin-impediments. You must have sent out an audio prayer and have proper connections (knowledge of God's principles). One must have the full armor of God, or else evil forces will intercept and corrupt transmissions. Chosen by God, some people acquire these from birth. They seem handed down through family lines. Extremely frustrating to others, they may require years of personal work.

Tobacco caused the breakdown in communications. Often the communication was not in an audio form, but sometimes it was. There is only one path. This is a time path. If you're off the path, you will alter your future events, corrupting the time-line. This statement is based on actual, physics principles of time-dilation. You cannot avoid it, although God's Holy Spirit will try to correct it if you are willing to follow Him. This can be difficult to do, as He will ask you to not only walk in His ways, but to follow the suggestions He gives you. I have seen people do this unknowingly, and things seem to fall into place almost magically. These are divine appointments but are easily altered by evil spirits if you stray from the time-dilation, directed path.

This is why we have to be careful of what we say and do. There are a certain amount of creation forces within our voice. They're not really ours to use, but are a gift from God, and He amplifies them.

CUES: Hosea 9:7, "The days of visitation are come, the days of recompense are come; Israel shall know it: the prophet is a fool, the spiritual man is mad, for the multitude of thine iniquity, and the great hatred." This is what occurs; these people were originally raised by the Spirit of God and they followed everything unknowingly, all the cues from God, and God led them perfectly without their knowledge, even though time prophetically led into future encounters. Then because of iniquities, they oscillated from one high point to a low point, and the devil took over and mis-cued them. All those sure cues they took from the Holy Spirit of God, they now unknowingly took from the devil. They would control them completely and make them look like

fools. The opposite is true as well. People can come from the devil and then God can acquire them.

In order to access the program, they bring up a memory or a scent or press on us a certain way, or even give audio cues.

A large globe of EM waves emanate from each one of us, about twenty feet, unless we suppress it. The more spirits within, the larger it becomes and emits. We have the option to program our selves through our good/bad habits. This way is probably the most effective and widely used. We turn from bad habits, and new ones develop (programming). Good spirits take this difficult turning and freeze/create it all at once into a good program. It can be hard during the turning. The spirits set the timing of turning and re-creating the program. You have to follow their cues, or else you might be following someone else's.

I'm not authorized to reveal this matter any longer. My communications are weaker now and corrupted by spirits further from the source. Get the rest of the story from the Bible.

**GARDEN OF EDEN:** Evil does try maintaining power by suppression of the truth or misleading of the innocent. This world is not as it seems! I detect/sense and see visual cues by way of hand gestures, body movements of people, etc., that spirits have some control. Spirits very small, once prevented weeds from forming in the Garden of Eden. They're occupied adjusting, healing, and preventing or producing plagues, cancers, things on the molecular level. It's a big erector set for them. Get the wrong type of spirits in control, and you have trouble. Some come to do something, and then leave. People unknowingly are taking cues from them, as spontaneous actions which you have not knowingly initiated, like a nod of your head, a movement of your hand (signals), or a thought shared between two or more. These gestures become either spontaneous, or spirits cue them. Once they become spontaneous, the cue is no longer needed, but they're still in place. They just strike a nerve-ending and it happens. You can't recognize these invisible forces. Yet they're there. Don't get caught off guard.

You have to have virility (absence from fleshly desires) to do any healing. The holiest spirits are in charge of maintaining diseases and controlling the environment, such as control of mutating microbes and abnormal, evil entities. In the Garden of Eden there were no weeds choking out lush, edible vegetation which grew everywhere. When Satan fell, one-third of the angels fell, and Adam no longer maintained the Garden of Eden.

**WORKING WITH GOD:** God made biological machines. They have to be maintained, else weeds and cancers grow. Spirits can maintain on a molecular level, altering chromosomes. Remember mechanical machinery like the old motor-driven, mechanical calculators that could add, subtract, multiply, and divide. Only spirits use waves.

I think you must be without sin for seven days or more to receive the gift of healing. I recommend you restrain your intake of pure sugar like candy, carbonated soft drinks, caffeine,

and nicotine. I feel like a hypocrite saying these things, as I was never able to achieve complete abstinence from any sin for seven days.

RADIO: Secular radio announcers today verbally spew out toxic, evil, and society-destroying words. These people are unknowingly tools of the devil. They are trained by the Schick method (minute, almost undetectable, in response to external moments' negative impulses, resulting in hatred when they're all added up). Even when the evil spirit is not pushing it, this person is in a mode much like a dog. Brain-neuron paths have been altered for one reason. Then that wiring is still there, even when the evil spirit that resides there is in the nearby æther field. So that person becomes like a dog and his food. Most of us have been programmed unknowingly this way. These are master programmers. We always have free will, but the spirits do our program, based on how we behave. The spirits follow neuron pathways, re-routing them for their use.

THE DART (Ephesians 6:16): **David was the protector of the flock, slayer of the lion and bear, and giant killer (1 Samuel 17:34-37).** When you have this dart, then you're in the Book of Proverbs written by King Solomon (Proverbs 1:1).

It is a nifty but dangerous experiment (demons will attempt to cancel your awareness of it by placing it at a time when you're not going to perceive the brief occurrence, or by slowing down the flow or other means; **you will feel it, however**). When sleeping with a harlot, it's the end of one's life (**Proverbs 7:5, 23-27**).

One may feel a flow of evil, spiritual energy. When two people copulate, their fields (like cell phones) intertwine and become as one. If one sleeps with a harlot, a dart that can be felt will pass from her/his belly into the victim. This is the direct passing of an evil spirit. The Bible says *dart*, but there is no pain associated with it. It is a flow or transfer of spiritual energy that can be felt at different volumes or levels, depending on the strength. The darts are the transferring of spirits that travel from person to person. From there they gain access to your brain. I don't want to get too much complicated, but the spirits try to open the thought-doors from here. When you turn from sin, they can't stand it and will leave; then God can place a holier spirit in you, if you open the thought-door and accept it.

Everything has a duplicate, and one can feel God's Spirit entering here also, but maybe not during copulation unless you're married. Family curses are passed down from generation to generation. I know most of this by experience. These things have long and short oscillations, coming and going much as a pendulum swings at varying rates. The rates can be as slow as the biblical time or just seconds apart.

Anyone with this knowledge could inflect with demons or simply influence hundreds of people who have sinned sexually. Demons can enter people who have sinned in this way without their knowing it and from more than twenty feet away. Warning: demons are not necessary (although they ruin a body's electromagnetic field). They can influence peoples like Sodom and Gomorrah

or as Hitler did in Germany. They want everyone and will do anything to get you. People that are possessed in this way are out of control.

**SODOMY:** Sodomy is very bad. Unclean spirits come from it. You can often smell them when they are present. They give a foul odor much like a person that has not showered for days. Sodomy breaks open the body's electrical field (armor of light or aura), allowing the evil spirit to enter. Female spirits are attracted to men that are homosexuals. After he is possessed by a female spirit, a man takes on the characteristics of the possessing, female spirit. The human male takes on female attributes; the voice, emotions, etc., become female-like. Human females may have male traits for the same reason.

There are different classes of demon evil spirits. The lust-demons usually have a foul odor. People that have this class of devil within them often have this foul odor. This spirit has entered its host in the wrong way (similar to sodomy). They have entered in that way; thus they stink. They have usual attributes thus: size-changing capabilities, thought-control, etc., so they can masquerade in various ways.

## 16. My Victory

I received healing in many ways. God got me straightened out. I still have to battle against temptations.

I have since by the grace of God been delivered from this behavioral sin. People who have had similar sins will attest to this testimony. Many evangelistic ministries have dealt with most of this behavior.

I did not want to put this part in this book. The traumatic life-experience I had was being nearly possessed by demons. Now I am the temple (house or home) of the Holy Spirit. I have to leave out a tremendous amount of these unusual life-experiences.

God tries to help with love, but my patience wears thin. I still have difficulty identifying God from the devil. That's a dangerous statement. There is a real physics problem. I'm on the wrong level and get communications from both sides. I turned and turned and turned and got delivered every time, but I still have clung to some sin. I wonder if I ever will be made perfect. Thank God that Christ died for me.

Glossary

Aether: an ancient concept (1700s) of the medium of permeating space, a field and not a gas, the God-field, not detectable and not visible, surrounds everything

Golem: the spirit world, in Hebrew

Iconic plate: images like icons translated, symbols

Oscillate: back and forth, up and down movements

Quantum jump: either up or down, electromagnetic emission or absorption of waves

Quantum level: Our body's EM field can freeze at different levels or plateaus.

Synodic theory of gravity: relating to conjunction; esp., relating to the period between two successive conjunctions of the same celestial bodies

Time-dilation: weightless spirits, instantaneous acceleration; timed from the body's molecular, velocity changes; timed and then returned precisely to our time-frame, relaying the seen future events back to our time

**Hanna Humberd's notes on Todd's book (second copy):**

Auto "biblical principles" – Imperative, if you don't want to be called a "heretic"

"for future scientists and other men" – mankind

"Bible in schools" – yes

“A class can resemble . . .” – good revelation

“Joy Dawson” – Interesting

“I may have gone overboard.” - It’s good to be humble.

“Creativity is not understood.” - True!

“I would like to emphasize . . . W/o freedom” – yes

“God had me . . . When I was . . . When I picked . . .” – sort of weird

“a very old person” – a familiar spirit or a demon

“The next ark . . . I’ve been told.” – Be careful with that analogy.

“I’ve seen evidence . . . It is a kind of time-travel . . . mass.” – The blood of Yeshua is the only covering God accepts when being transported in the Holy Spirit realm (in time past, present, and future).

“This possession I personally” – Repent from all sins and “Resist the devil, and he will flee from you” (James 4:7b). Keep repeating this word continually day/night ‘til he is gone. . . . Why play with “strange fire”?

“I strained greatly just to climb up” 2 paragraphs – So sad!

“The demons became . . . Noah’s (good) spirits” – What is this?”

“A congregation . . . on physical quantum laws . . . on magnets” – That makes sense.

“People that the devil uses can interfere w. this power.” – God condemned the Israelites to wander in the desert ‘til a whole generation had died.

“There are designated times . . . to turn.” – Great thought!

“We might interpret this revelation as a space ship landing upon a new planet.” – No. Always get Biblical confirmation.

“Noah’s family of spirits were the good angels that guided” – Did you check the spirit with “Will you confess that Jesus Christ came in the flesh, and will you confess that Jesus Christ came in my flesh?” [1John 4:1-3, esp. 2]

“I think you must be without sin for seven days” – Where in the Scripture is this?

“The problem of this alteration . . . corrected their genetic makeup.” – Interesting, but is it somewhere in the Scripture?

“I have the full theory . . . A holy spirit of God gave all this to me.” – What??? There is only one Holy Spirit, the Spirit of God Father, Yeshua Son.

“The old wives’ tale . . . blindness.” - Take it out.

“Sexual sins and the short circuit” paragraph – Who said?

“The body’s EM field can store up energy” - Interesting.

Same para. “When a person dies,” – sinner

“Angels and demons are . . . creative forces (spirit) “ – evil ones ?

“Any sin on my part . . . water in the atmosphere” – much more oxygen on the earth

“I did not want to put this part in.” paragraph – It’s good to witness about your surrender to Yeshua and your victory over Satan.

“Various means” paragraph – good info!

“If you are a Christian . . . He will not respond unless” - ?

“If bus. owners” – God looks to the leaders of the land.

“Evil spirits will even” end half of para. – The devil is seducing whomever he can. It’s a fact.

“Whatever you do in your life” – sounds right on

“Thoughts form your body’s field” para. and half of next – Interesting.

“God’s Spirit . . . Faith however has no” – Yes!

“Only the Holy Spirit . . . If you have sin . . . Be careful” – Yes!

“I became weak” para - ?

“The audio portion” para – Revealing!

“Demon spirits are” para – Worship music or Scriptures are a tape to play all night/day.

“Anything God does has a fake.” – True.

“Reading the Bible in the . . . halo” - ?

“There are EM pathways” sentence – Beautiful.

“God puts a new . . . If you have an angel” – What? Where in the Scriptures is this?

“Christ in His absence” para – Christ is God. He can do anything. He created the Heaven and the earth.

“Our body’s EM field can freeze” para – Interesting.

“I was able to receive” – Todd Bentley, Joseph Smith, etc., listened to angels, and what a mess that created! I pray that my spirit, soul, and body and conscious, unconscious, and subconscious mind (during my sleep) is covered by the blood of Yeshua and hooked up with the Holy Spirit.

“Every time . . . Holy Spirit . . . crying . . . smoking” – Precious love for us.

“Most people think . . . This book teaches” – True!

“Take authority” - Good!

“The tongue” – Lord , help us to bridle our tongues!

“My brother Ben” – He was dead. Why?

“Prophetic messages from” – Who gave them to you?

“Prayer is good, but God usually” - Good!

“We must initiate” – smiley face

“DO NOT ACCEPT” – Imperative!

“You may think you’re okay” – Yes!

“Following is just a short” – Dr. Carl Baugh, Kent Hogan, Dennis Swift, Bob Woodsworth (OR the last two)

“Maxwell’s Prayer” – PTL!

“Throughout time” para – a profound fact

“Ancient Egyptians” para. end – Satan wanted to be God and be part of the Godhead. It was given to the Adamic race, as “the Bride of Christ.” [What Satan wanted was given to the Church.]

“Zola Levitt” – a special man

“I made an audio tape- para.s – Very good that you expose this so many people will be warned.

I counteracted, repeating” – smiley face

“I don’t know what” – The evil forces are real!

“During the time” – Wow!

“I spent one week” end of para – Is this in the Scriptures verified?

“Later at the Foursquare” last three lines - ?

“I have had thousands . . . vivid color” – Any drug use?

“Anyone with this knowledge . . . Warning” – Did something get left out in the sentence?

“Thy kingdom comes” – Yes!

“WATERBED: I recommend” last two lines – Yes!

“There are waves . . . Jesus could” – God Jesus created the H<sub>2</sub>O, so wrong. He can walk on water any time. “buoyed . . . fasting” – Sounds like “eating from the tree of good and evil”; only carnal knowledge and explanations.

“Among the many things” last line “Shekinah” – Why lessen the power of God’s own presence showing up as mist?

“Here’s a misquoted” para. – Take it out.

“I don’t know . . . I have been . . . God has many . . . Demon spirits have” – The paragraphs hop from subject to subject sometimes; there’s no red thread to summarize a point.

“Miracles: Moses parted” – It talks about a highway in the desert maybe through the Red Sea again for all the dispersed tribes of Israel to come back home. [last word ?]

“That preachers just want” – Good! Pastors are under a heavy load.

“Jesus is Lord of hosts” – A glorious mystery, God in man and man in God.

“God is love” – God’s ways and love Him and want to please Him as His obedient children. End of para.

“The spirit world is more” – Yes! at beginning of para. and at end.

“All we do is recorded . . . permanent record” – True!

“Before I discovered . . . frog” – Serious!

Page 40 “Weightless, . . . I found” - ? twice, New to us.

“This treatise” – It’s a good testimony.

“SPIRITS: I have heard” – Third time mentioned in this book.

“High intensity” – Really? New info.

Page 44 “Remember the fission” – sinners? spirits?

“I have a tremendous . . . a creation spirit” - ?

“I did make a biblical . . . God’s angels” – Yes!

“This is why” – Yes, Lord. Help!

Page 46 end “Some good spirits” – Who are they?

“The devil tried” – What? Where in the Bible is this verified?

“It’s a ship” middle of para – Deep!

“This biblical passage” – smiley face

“Words I often heard . . . Don’t” - ?

“Ploys of the” – Scary!

“Things from the . . . throat . . . remorse” – Yes! True!

“The Hubble” – same said earlier already

“Secular radio announcers” end of para – Lord, help us!

“The Golem” end of para – Yes!

“Use the force, Luke” – evil spirit?

“I found God . . . spiritual time-travelers” - ?

Page 51 “Here is that spirit” – evil one?

“I’m sorry all the paragraphs” – Is someone going to help sort all the paragraphs and [take] the repeats out?

“Why would God” mid of para – repeat again

“Predatory” end of para – Yes!

“I found it really hard” end of para – oh yes!

“Partially guided by Noah’s family ? spirits”

“If this work” – The Jews cried, “Let his blood be upon us and our children. They meant the punishment, but they also needed Christ’s blood of forgiveness.

“There is going to be . . . identical twins” – repeat

“Several hundreds . . . Jesus had ESP” – Jesus was God all-knowing.

“God tries to help” – The Bible is your “plumbline” and “life,”

and peace in your spirit is imperative.

“It appears . . . EM waves” - ?

“So you see” near end of para – smiley face, Awesome!

“The same” – Yes, true!

“Evil does try . . . taking cues” – Interesting. [Hanna’s writing?]

“In my observations” end of para – smiley face

“These people” – Yes!

“One extreme example” – I saw a movie about a mathematical genius who went mad.

“After all” – Amen.

“The universe” – Yes! Ha!

“We can render” – Glory!

“I have left out a lot” mid of para – ‘Better be safe than sorry!

“Walking in the Spirit” – Drink and look around for enemies at the same time.

“God created a machine” – us in His own likeness

“Contrariwise” – “Father of lies”

“With China’s physical (force it),” - ?

## 9. Scientific Explanations of Miracles

This is going to be difficult for people to understand, but there are a lot of biblical miracles I would like to explain and give physics theory that supports them, like the parting of the Red Sea and the miracles Christ performed.

Radioactive decay rates are assumed to be constant and are commonly used to date ancient objects. This conclusion is wrong. They can be accelerated to diminish at a rate much greater than the present-day constants. Probably around the great flood time (Noah and the ark), I believe a heavenly catastrophe occurred that caused decay rates to accelerate rapidly. This catastrophe caused the earth to collapse from within, gushing out water from within, as well as huge cloud-bursts. The elements were changed. This is assumed to be a possible future event again, only the results may be earthquakes, violent storms, and heavenly signs. There is a means by use of harmonics tuned that will produce heat from low-level radioactive sources. This is called zero-point energy.

Also Sodom and Gomorrah were possibly cascaded failures of destruction that God initiated or that sexual immorality brought about. Possibility is related to the phenomenon of spontaneous combustion of the flesh. All these things are related to the atoms surrounding us and to quantum jumps within the atom. All are related to electromagnetic waves within the atom. We know that a tremendous amount of energy is stored within the atom, like the atomic bomb. Earthquakes, etc., could result as well from our interaction with nature and our sins. All these things are related to nature. We are connected to our environment more than we care to know.

**PARTING OF THE RED SEA:** Moses parted the Red Sea under God's direction. A gravitational event would cause water to be sucked up, allowing the safe passage of the Israelites from Egypt. People predicted timing of a massive, gravitational wave, which certainly could have parted the waters of the Red Sea. The parting of the Red Sea was probably due to two long lines of gravity waves side by side. That would remove water from between them, while allowing a passage for people unaffected.

I did make a biblical, holy anointing oil from Exodus. There are times when I felt I got too close to God and had to back off. There was some kind of spirit from God, but he would not pass the who-is-the-Lord question. This spirit had a creation sound coming from him, which kind of worried me. It had a sonar sound, as the Jews shouted around the walls of Jericho. This was probably some kind of tonal sound that echoes directed. Enabling-creation forces caused the collapse of atoms within the walls. God's angels, like sirens that had sonar sounds emanating from them, caused the breakdown of the walls. The amplitude of that many people and God's Spirit caused the walls to crumble.

**ISAIAH 55:12:** This biblical passage ends this way: "All the trees of the field shall clap their hands." We can easily explain something that would cause leaves on the trees to clap together.

Assuming that leaves are similar to two plates hung side by side, we may describe the physics of how two plates would clap together. Any sudden increase/decrease or pulse in barometric pressure would cause two side-by-side-plates (leaves) to snap together or apart. Either would occur naturally, or God's Spirit would initiate the movement. A huge, gravity wave from a stellar collapse would be directed toward the earth. Then the upward pull of the air would cause the limbs of the trees to swing upward violently, causing the leaves to clap.

There are waves coming out of the earth, helix waves. Jesus could walk on the water if the timing were correct. His bodily electromagnetic field could counter by pulsing proper timing against the waves. Or possibly the Holy Spirit buoyed Him as well. Fasting might be necessary to eliminate the weight of non-body materials. These same waves allow your spirit to float and not sink into the earth. Without these waves, our spirit would sink within the earth. Some of these energies can come from the storage of energy from abstinence.

Jesus Christ had ESP. EM waves are in Luke 5:22 where it says Jesus perceived people's thoughts. [See Mark 2:8 and the passage with the woman at the well where He told her all He knew about her life (John 4:1-42), as well as many other verses like John 2:24,25, 18:4 and Philippians 2:6.]

Spirits use the energy stored within your body like a capacitor for creation around your surroundings. This is sometimes stored-up sexual energy, which depletes. Spirits also have their own energies. Christ was the master of storing up the transference of energy between two people and said once when the woman touched His garment, "Who touched me?" (Luke 8:45). Jesus immediately knew someone had touched Him. He felt energy (virtue) leaving Him. He had felt the energy transfer, and we can feel it sometimes also, if we have a lot stored up. A transfer of anointing is similar. Here's Luke 6:19 also: "And the whole multitude sought to touch him: for there went virtue out of him, and healed them all."

Creation events like healing, tooth-filling, and the miracle of the loaves and fishes must have atomic precision and involve the Spirit of God, since God uses our waves to produce events. The more pure people are involved, the greater are the possibilities. These events oscillate in both small and huge, time-interval cycles. We usually are unaware but we don't have to be.

## Suggested Readings

### Books:

Austin, Steven A., *Grand Canyon, Monument to Catastrophe*, Institute for Creation Research, Santee, California, 1994 (in chapter 10)

Foster, Atwood, *The Magnificent Messiah*, hardback, 334 pages (Call 503-284-8194.)

Jeffrey, Grant R. (He wrote, e.g., *Shadow Government*, Waterbrook Press, Colorado Springs, Colorado, 2009.) (in chapter 15)

Lindsey, Hal, *The Late Great Planet Earth* (in chapter 15)

MacArthur, John and Jack (1-800-554-7223, [Letters@GTU.org](mailto:Letters@GTU.org)) (in chapter 15)

Morris, Henry M., *Men of Science, Men of God*, Green Forest, Arkansas: Master Books, Inc., 1982 (in chapter 8)

*The Earth: Its Wonders, Its Secrets*, Reader's Digest series (in chapter 15)

Maurice, Cotterell, *Future Science*

### Magazines:

*Infinite Energy*, Sept.-Oct., 2009, issue 87 (in chapter 7)

*Popular Science Magazine*, Sept. 2006, page 72 (in chapter 15)
